D.O. No. 14-26/2018(CPP-II)

2nd Nov, 2018

Sir/Madam,

Today, technology-based tools are gaining prominence to impart education to students, which is helping students to learn, communicate, collaborate and study on and off campus.

Digital learning solutions have changed the face of most Indian classrooms. Learning solutions that are student centric and also aid teachers in better engagement in classrooms are the learning tools of the future. As technology has become an integral part of everyone's life, the Indian education has to quickly shift to digital learning. This transformation will take the teaching-learning process at universities and colleges to the next level.

Keeping the above objective in mind the UGC is collecting information to know the effective use of Digital Technology in Universities & Colleges, through an online survey. To collect the information the following link has been created http://www.facilities.aicte-india.org/survey/digital_techniques.php. All universities are requested to submit information on the above link. The relevant instruction to affiliated colleges/institutions in this regard, may also be issued.

In case of any difficulty, in submitting the information, please contact on the email specially created for the purpose i.e. egov@aicte-india.org.

With kind regards,

Yours sincerely

Prof. Rajnish Jain

To the Vice Chancellors of all universities
