Advertisement for EDUREFORM Innovation Manager (IM)

Institution: Shivaji University, Kolhapur

Location: Department of Education

What is EDUREFORM? EDUREFORM is a project is entitled as **Mitigate the Impact of Fourth Industrial Revolution on Indian Society: Education Reform for Future and In-Service School Teachers**. It is a three-year European Commission funded project composed by an International Consortium of Educational institutions. Having the background in the expected adverse consequences on the labour market of the Fourth Industrial Revolution and as per the New Education Policy 2020. The project aims to promote pedagogical solutions fostering analytical, creative and critical skills among the Indian secondary schools' students with reforms in Pre-service and In-service Teacher Education Programs in India

Tasks and Responsibilities

- S/he needs to analyze innovative teaching methodologies which could mitigate the impact of the fourth industrial revolution on Indian labour force.
- S/he will be involved in the development of innovative learning courses. The mission is to reach out to a high number of stakeholders dealing with the education system in India.
- S/he will acquire international exposure needed to analyze innovative teaching methodology in education in different cultural contexts.
- S/he will participate in the preparation and implementation of projects' milestones and events.
- *In addition to this the University authorities will assign tasks time to time*

General Job Description

- Manage relationships with key internal and external stakeholders of the EDUREFORM project.
- Ensure that the best practices developed in the framework of the project are implemented at the University.
- Facilitate brainstorming sessions and build other repeatable processes to generate new ideas, leveraging other humane resources to acquire innovative thinking.
- Brainstorm new operational capabilities, programs and processes to further evolve the organization's operations within the customer service, technology and consumer electronics industry
- Assess the fit to make recommendations for new ideas, manage the prioritization process of them and determine the resources needed for concept testing initiatives in education settings.
