Placement opportunities :

As the job market continues to recover from the pandemic, in the current year YCSRD MBA Contributed 75% towards the student's placements. Moreover the placement opportunities for the academic year 2023-24 look promising for students. Many industries are expected to see growth, which could result in increased job openings. This includes finance, healthcare, e-commerce, and renewable energy. Additionally, remote work has become more prevalent during the pandemic, which means that students may have access to job opportunities beyond their geographic location. Student should also consider the potential for internships and co-programs as these can lead to full-time job offers after MBA. However, it is important to note that competition for jobs will still be high, and as the responsibility of department we will advise students should take proactive steps to prepare themselves for the job market, such as Marketing, Operations, H R, Finance, Agri business to gaining relevant experience, and developing their skills,

Salient Features of the Department:

Interdisciplinary programmers
Staff with Ph. D
Focus on practical knowledge
