

## NASI-SCOPUS YOUNG SCIENTIST AWARDS 2015

The NASI-Scopus Young Scientist of the Year will receive:

- A citation & a plaque
- Cash prize of INR 75,000

Awards will be given in the following 9 areas of Science, Technology & Medicine:

- Agriculture
- Biological Sciences
- Chemistry
- Earth, Oceanography & Environmental Studies
- Engineering
- Mathematics
- Medicine
- Physics
- Social Sciences

The last day for physical receipt of the application is 15th April, 2015

### Criteria for Application

- An Indian citizen, residing and working in India
- Must have completed a PhD/MD or equivalent degree
- Must be born on or after January 1st, 1975

For application & nomination, please visit: <http://southasia.elsevier.com>

### SHIVAJI UNIVERSITY, KOLHAPUR.

# Call for entries

**Dear Esteemed Scientist,**

Greetings!

The National Academy of Sciences India (NASI) and Elsevier take immense pride in announcing the **NASI – Scopus Young Scientist Awards 2015** for the 9th year in a row. This year, the awards will be given away in the following 9 areas of Science, Technology & Medicine:

- Agriculture
- Chemistry
- Engineering
- Medicine
- Social Sciences
- Biological Sciences
- Earth, Oceanography & Environmental Studies
- Mathematics
- Physics

Over the past eight years, the NASI – Scopus Young Scientist Awards has established itself as one of the premier awards among the Indian scientific community. Year after year, the awards have witnessed an increasing number of high-quality applications from various academic and research institutions across the country. To date, 73 young scientists have received this award, who have done outstanding work in the early years of their research career.

**Eligibility:**

- An Indian citizen, residing and working in India
- Have completed at least PhD/MD or equivalent degree
- Must be born on or after January 1st, 1975

For further information regarding the process, application format, and submission, please visit <http://southasia.elsevier.com>

As you are a scientist or researcher, we would be happy to receive an application from you or from a candidate nominated by you. May we request you to kindly circulate this amongst your department/school to enable the best candidates to apply for the award. The last date for physical receipt of the application is April 15th, 2015.

Thank you in advance for your cooperation.  
Best wishes,

*Manik Sethi*

Dated, the 16<sup>th</sup> July, 2014.

Dear Sir,

This Ministry has received representations on implementing provisions of National Policy for Older Persons (1999). The extracts of this policy, regarding the higher education sector, are enclosed.

2. I shall be grateful if you could provide a report on the provisions already available under the schemes, programmes etc. of the UGC/universities achieving the enclosed policy statement and the need for a special provision, if any, in order to utilize the services of older people and to give them a dignified and improved quality of life.

With regards,

Yours sincerely,

**Extracts from the National Policy for Older Persons (1999) regarding the higher education sector**

- (i) Educational curriculum, at all stages of formal education as also non-formal education programmes will incorporate material to strengthen intergenerational bonds and mutually supporting relationships. Interactions with educational institutions will be facilitated whereby older persons with professional qualifications and knowledge in science, arts, environment, socio-cultural heritage, sports and other areas could interact with children and young persons. .... will be encouraged and assisted to develop out-reach programmes for interacting with older persons on a regular basis, participate in the running of senior citizens centres and develop activities in them. Individuals of all ages, families and communities will be provided with information about the ageing process and the changing roles, responsibilities and relationships at different stages of the life-cycle. The contributions of older persons inside the household and outside will be highlighted through the media and other forums and negative images, myths and stereotypes dispelled.
- (ii) The National Policy recognizes that 60+ phase of life is a huge untapped resource. Facilities will be made available so that this potential is realized and individuals are enabled to make the appropriate choices.
- (iii) Programmes will be developed to promote family values, sensitize the young on the necessity and desirability of inter-generational bonding and continuity and the desirability of meeting filial obligations. Values of caring and sharing need to be reinforced. Society will need to be sensitized to accept the role of married daughters in sharing the responsibility of supporting older parents in the light of changing context where parents have only one or two children, in some situations only daughter. This would require some adjustment and changes in perceptions of in-law in regard to sharing of caring responsibilities by sons and daughters as a corollary to equal rights of inheritance and the greater emotional attachment that daughters have with their parents.
- (iv) The importance of a good data base on older persons is recognized. Research activity on ageing will require to be strengthened. Universities, medical colleges and research institutions will be assisted to set up centres for gerontological studies and geriatrics. Corporate bodies, Banks, Trusts and Endowments will be requested to institute Chairs in Universities and medical colleges in gerontology and geriatrics. Funding support will be provided to academic bodies for research projects on ageing. Superannuated scientists will be assisted so that their professional knowledge can be utilized.
