College	Nagthane Tal: Satara-Dist: Satara-415519- Maharashtra	Being Dual Mode University, Examinations are conducted with regular students by separate independent authority, i.e., Board of Examination and Evaluation which is headed by Director. The Examination process has been proactively implementing various evaluation reforms using advanced digital technology for smooth functioning of the examinations. Some of the noteworthy reforms are 'Secured Remote Paper Distribution' (SRPD) for secure online distribution of question papers, decentralization of CAP centres for speedy assessment of answer sheets, creation of database of paper setters through special software, software for demand and supply of the examination material to reduce carbon footprints. Examination Section strives hard to become fair, efficient, reliable and transparent to achieve credibility. Shivaji University, Kolhapur has to its credit record of smooth conduct of examinations and timely declaration of results, within 30 days which is appreciated by Hon'ble Chancellor. In recent times, several initiatives are taken to ensure better standards, improve accuracy, efficiency and transparency in the various steps involved in conduct/declaration of examinations results. Steps have also been taken to minimize the errors and mistakes, ensure better accuracy and efficiency during paper setting, conduct of the examination, collection, transport, coding-decoding and assessment, moderation of answer books, entry of marks on the answer books, mark lists, ledgers and statements of marks and issue of various certificates. Kolhapur-416205-Maharashtra	Being Dual Mode University, Examinations are conducted with regular students by separate independent authority, i.e., Board of Examination and Evaluation which is headed by Director. The Examination process has been proactively implementing various evaluation reforms using advanced digital technology for smooth functioning of the examinations. Some of the noteworthy reforms are 'Secured Remote Paper Distribution' (SRPD) for secure online distribution of question papers, decentralization of CAP centres for speedy assessment of answer sheets, creation of database of paper setters through special software, software for demand and supply of the examination material to reduce carbon footprints. Examination Section strives hard to become fair, efficient, reliable and transparent to achieve credibility. Shivaji University, Kolhapur has to its credit record of smooth conduct of examinations and timely declaration of results, within 30 days which is appreciated by Hon'ble Chancellor. In recent times, several initiatives are taken to ensure better standards, improve accuracy, efficiency and transparency in the various steps involved in conduct/declaration of examinations results. Steps have also been taken to minimize the errors and mistakes, ensure better accuracy and efficiency during paper setting, conduct of the examination, collection, transport, coding-decoding and assessment, moderation of answer books, entry of marks on the answer books, mark lists, ledgers and statements of marks and issue of various certificates. 24 JAN 2019

Sub: Commission decision on the appeal under sub-regulation (5) of part-II of the University Grants Commission (Open and Distance Learning 2017) Regulations, submitted by HEI for offering programmes in Open and Distance Learning (ODL) mode from academic year 2018-19, session beginning from January, 2019 and onwards - regarding.

Sir/Madam,

This is in continuation to the UGC Orders of even number dated **14th August, 2018** and **18th October, 2018**, wherein the details of programmes recognized for 2018-19 onwards and programmes not recognized were communicated to **Shivaji University**.

2. As per the provisions under sub-regulation (5) of part-II of the University Grants Commission (Open and Distance Learning 2017) Regulations and the decision of the Commission it is 535th meeting held on 27th September, 2018, for the programmes not recognized as per the UGC letter cited in above Para, the Higher Educational Institution had been provided an opportunity to submit an appeal along with requisite fee and documentary evidence, if any within 30 days from the date of the said UGC letter.

3. The appeal along with documents submitted by the **Shivaji University** was placed before duly constituted Standing Appellate Committee in the meeting held on 10/11 December, 2018, at UGC, 35 Feroze Shah Road, New Delhi. The Standing Appellate Committee based on the appeal submitted along with documentary evidences, interaction with the HEI Authorities and the provisions of the University Grants Commission (Open and Distance Learning) Regulations, 2017 and its amendments, made recommendations for consideration of the Competent Authority, in accordance to the Commission decision, in its 534th meeting, held on 02.08.2018.

4. Based on the decision of the Competent Authority, I am directed to issue this Order, thereby communicating the decision, on the appeal received, for offering programmes in Open and Distance Learning (ODL) mode from academic year 2018-19, session beginning from January, 2019 and onwards by the Shivaji University as detailed in point no. 5 below.

2.	MASTER OF ARTS (ECONOMICS)	
3.	MASTER OF COMMERCE (VALUATION OF REAL ESTATE)	
4.	MASTER OF SCIENCE (MATHEMATICS)	

*As HEI NAAC score is below 3.26, the recognition is given from the academic year 2018-19 (session beginning from January, 2019) to 2019-20, based on the UGC (ODL) Second Amendment Regulations, 2018. The list of recognized Learner Support Centres/Study Centres will be available shortly.

6. For the programmes recognized in 5 above, the Higher Educational Institution shall scrupulously abide in letter and spirit by all the terms and conditions, while offering the programmes in Open and Distance Learning mode, as per the provisions detailed in Part-III, Part-IV, Part-V, Part-VI and Annexure-I to Annexure-XI of the University Grants Commission (Open & Distance Learning) Regulations, 2017 and its amendments. Some specific conditions given in UGC (ODL) Regulations, 2017 & its amendments are given in **Annexure-1**.

7. If the HEI fails to comply with the conditions of recognition or if it is found conducting affairs in a manner that leads to deterioration of academic standards, or if any information, documentary evidence submitted/produced by the HEI is found to be false or fake at a later date, UGC shall take action as per Regulation (4) Part-II of UGC (ODL) Regulations, 2017.

8. Higher Educational Institutions (HEIs) are required to comply with all the provisions of the UGC (ODL) Regulations, 2017 and its amendments. If any deviation is noticed, the same would entail not only withdrawal of permission/recognition for such ODL course but also for other courses offered by the institution, on regular and conventional mode, as directed by MHRD vide letter F. No.2-18/2017-U3 (A) dated 07.10.2018 on the recommendations of Justice Reddy Committee constituted by MHRD on the directions of Hon'ble Supreme Court dated 03.11.2018 in Civil Appeal No.17869-17870 filed by Orissa Lift Irrigation Corp. Ltd Versus Rabi Sankar Patro & Ors.

9. **Time limit for completion of admission process for offering ODL programmes by HEIs:**

The Commission in its 537th meeting held on 10.12.2018 has decided the time limit for completion of admission process by the HEIs for offering ODL programmes as mentioned below:

- | | | |
|----|------------------------------|------------------------------------|
| a) | Academic session for January | - admission last date February end |
| b) | Academic session for July | - admission last date August end |

The Commission has also directed that the HEIs shall upload the admission details within ten days from the last date of the admissions in the respective academic session i.e. 10th September for July academic session and 10th March for January academic session. Accordingly, the HEIs shall comply with the above decision of Commission.

10. The application stands closed, and the HEI needs to apply afresh as and when UGC invites application for recognition of ODL programmes.

11. The decision of the Commission shall be final and binding on the Higher Educational Institutions.

Yours faithfully,

(Jitendra)

5. apply network analysis for project planning and queuing for inventory situations.

Unit-1: Introduction to OR

Concepts, Phases of OR, Application potential to diverse Problems in business & industry, scope & limitations.

Unit-2: Linear programming (LP)

Concepts, Formulation of models, diverse problems graphical solutions –simple algorithm –use of slack / surplus / artificial variables max. / Min-big. M problems (optimum sensitivity analysis)

Unit-3: Assignment problems (AP)

Concepts, formulation of model-Hungarian –method of solution. /maximisation, /.- balanced/unbalanced–prob.

Unit-4: Transportation problems

Concepts, formulation of model- solution procedure for initial feasible solution & optimality check- balance/ unbalance- maxi./ mini.-Case of degeneracy.

Unit-5: Queuing (WATING LINE)- Models

Concepts, types of queuing system characteristics of queuing model, queues in series & parallel birth & Death process. Prob. Based on the results of (M/M/I) model.

Unit-6: Inventory models

Types of inventories, cost involved, deterministic model, Economic Order Quantity (EOQ) & Economic Batch Quantity (EBQ) with finite production rate, EOQ under price break,- determination of safety stock & reorder levels- lead time.

Unit-7: Network analysis- Minimal spanning tree problems

Shortest route problems, Maximal flow in capacitated network- Concept & solution, Algorithm as applied to prob.-project planning & control by use of CPM/PERT Concepts.

Unit-8: Simulation

Concept- Areas of application- Monto Carlo simulation & its application to problems - in queuing Inventory situations.

3. Programmed Learning at for Production and Operations Management - Buffa, Elwoods

M.B.A. (Distance Mode)
Semester-IV
ELECTIVE - D: PRODUCTION AND OPERATIONS MANAGEMENT
PAPER-V: CASE STUDIES IN PRODUCTION MANAGEMENT

Course Outcome : To enable student to

1. describe the concept of case study.
2. illustrate the relevance and importance of case studies in production operation management.
3. analyze short, medium and long cases.
4. draw the conclusions on the basis of study.
5. take decisions on the basis of conclusions drawn from the study

Unit 1: Concept and types of Case, Steps in Case Analysis.

Unit 2: Relevance and importance of Case Studies in Production Management.

Unit 3: Steps for Case Solution, Analysis and Interpretation of Cases in Production Management.

Unit 4: Analysis & interpretation of short cases-example.

Unit 5: Analysis & interpretation of medium cases-example.

Unit 6: Analysis & interpretation of long cases-example.

Unit 7: Short & medium cases for practice.

Unit 8: Long cases for practice

SHIVAJI UNIVERSITY, KOLHAPUR
CENTRE FOR DISTANCE EDUCATION

Master of Science Mathematics (M.Sc.) Course through Distance Mode

Vision - Developing human resource required for the Knowledge Society

Mission - Disseminate and facilitate Higher Education to marginalized and deprived masses

M.Sc (Mathematics) Programme Educational Objectives (PEO):

- 1) To develop employable abilities of the learner where mathematics plays important role.
- 2) TO motivate distance education M.Sc. (Mathematics) learner to take higher education.
- 3) To inspire learner to undertake research activity in Mathematics.
- 4) To make learners enough competent in basic functionalities.

Introduction :

In the post globalization period, there is a huge requirement of manpower having M.Sc. (Mathematics) degree to cater to the needs of manufacturing and service organizations. Further, the manpower which is already employed in manufacturing and service organizations, not having M.Sc. (Mathematics) degree are required to upgrade their qualification by possessing M.Sc. (Mathematics) degree through distance mode.

Master of Science Mathematics : M.Sc. (Mathematics) Distance Mode

Why M.Sc. (Mathematics) - Distance Mode ?

Some graduates, primary teacher, high-school teacher already in service and they want to higher qualification than current qualification for success in their life and this is due only through Distance.

Aims of the Programme :

To prepare a young generation of Teachers , Bank staff , government officers who are :

1. aware of the need of working systematically
2. aware of the scientific and technological developments.
3. capable of performing their work backed with theoretical and conceptual clarity.
4. capable of solving problems and taking appropriate decisions

Duration of the Course

The duration of the Course is 2 years and 3 months divided into 4 semesters.

Eligibility for Admission :

- 1) B.A / B.Sc. graduate with Mathematics as specialization subject. OR
- 2) B.A. /B.Sc. II with one subject Mathematics which of 55%.

Fees to be paid while registering for the first time for the First Year**(Sem.- I & Sem.- II) in June / July :**

Sr. No.	Details	Amount (in Rs.)
1.	Registration Fee	1690
2.	S.I.M. Fee	2815
3.	Exam Fee (Oct/Nov 2019 Exam)	820
4.	Exam Fee (Mar/Apr 2020 Exam)	820
5.	Cost of Application Form	20
6.	Study Centre Fee	845
7.	Prospectus Charges	20
8.	E-Facility Fee	50
9.	Eligibility Fee	50
10.	Environment Studies Exam	0
11.	Dhwaj Nidhi	10
12.	Tution / Course Fee	0
	Total Amount	7,140

Eligibility Fees :

Sr. No.	Details	Amount
1.	Eligibility Fee (at the time of admission only)	
	• If candidate is from an institution affiliated to any other recognized Indian University	Rs. 100.00
	• If candidate is from an institution affiliated to any other recognized non-Indian University	Rs. 150.00

Fees to be paid while registering for the first time for the Second Year (Sem. III & Sem. IV) in June / July :

Sr. No.	Details	Amount (in Rs.)
1.	Registration Fee	1690
2.	S.I.M. Fee	2815
3.	Exam Fee (Oct/Nov 2019 Exam)	820
4.	Exam Fee (Mar/Apr 2020 Exam)	820
5.	Cost of Application Form	20
6.	Study Centre Fee	845
7.	Prospectus Charges	20
8.	E-Facility Fee	50
9.	Eligibility Fee	50

10.	Environment Studies Exam	0
11.	Dhwaj Nidhi	10
12.	Tuition / Course Fee	0
	Total Amount	7,140

Note :

1. In case of change in fees, the revised fees will be charged at the time of admission.
2. Late Fee or Super Late Fee, as applicable, would be additional.
3. Additional fees for failed subject/s.

Standard of Passing :

- a. In order to pass the course, a candidate has to clear all the 36 heads of passing by getting a minimum of 40% in each head.
- b. Subject to the condition of clearing all 36 heads, in order to pass the course a candidate has to secure minimum of 40% in aggregate of all 36 heads.
- c. Division will be as follows -

50% and above but less than 60%	-	III class
60% and above but less than 70%	-	II class
70% and above	-	I class with distinction

- d. No class will be awarded to any part of examination.

A.T.K.T Rules

1. For admission to M.Sc. Part-II a candidate must have cleared all papers of Sem.I and II or at least 06 papers of Sem. I and II combine.
2. The students who have completed first semester are allowed to continue for second semester and students who have completed third Semester are allowed to continue for Fourth Semester as per above rule

Pattern of Examination :

External Examination each paper of - 90 Marks Internal 30 Marks

The duration of external examination will be of 3 hours the assignments as prescribed by the Study Centre.

Contact Sessions :

The contact sessions shall be arranged at the end of week i.e. on Sunday or as per the convenience of the Study Centre and the registered candidates.

M.Sc. (Mathematics) Programme Outcomes (PO'S)

After completion of M.Sc. (Mathematics) programme, distance learner can able to,

- 1) Solve any mathematical problem by properly applying mathematical principles.
- 2) Apply their knowledge in their current profession.
- 3) Make their careers in analysis of mathematical data in government and non government organization.
- 4) Undertake research activity of new simplex methods in Mathematics.

Syllabus :

M.A. / M. Sc. Mathematics (Part I) (Semester I)
(Introduced from June 2013 onwards)

(i) Paper : MT 101**(ii) Title of Paper: Algebra – I****(iii) Course Outcomes:****To enable the student to;**

1. study group theory in detail.
2. introduce the concept of modules
3. perform group action on a set.
4. analyze various theorems on a set and apply fundamental theorem of modules.

(iv) A brief note: - (Notations and concepts are taken from books given in basic reading; this should be taken in account for examination point of view).

(v) UNIT No. of Lectures

Unit I: Simple groups, simplicity of A_n ($n > 5$), Commutator subgroups, normal and subnormal series, Jordan-Holder theorem, Solvable groups, isomorphism theorems, Zassenhaus Lemma, Schreier refinement theorem. **15 Lectures.**

Unit II: Group action on a set, isometry subgroups, Burnside theorem, Sylow's theorems, p-subgroups, Class equation and applications. **15 Lectures**

Unit III: Ring of Polynomials, Factorization of polynomials over fields, irreducible polynomials, Eisenstein criterion, ideals in $F[x]$, unique factorization domain, principal ideal domain, Gauss lemma, Euclidean Domain. **15 Lectures**

Unit IV: Modules, sub-modules, quotient modules, homomorphism and isomorphism theorems, fundamental theorem for modules. **15 Lectures**

(vi) Recommended Reading:**(In MLA/APA Style Sheet Format)**

- a) Basic Reading:-** 1) A first course in Abstract Algebra by John Fraleigh
 (3rd edition) Narosa publishing house, New Delhi
 2) C. Musili, Rings and Modules, Narosa Publishing house.
 3) Joseph A. Gallian, Contemporary Abstract Algebra, Narosa
 Publication, Fourth Edition, 1999.

b) Additional Reading:- 1) "Basic Abstract Algebra" by Bhattacharya, Jain and Nagpal,

2nd edition, Narosa Publishing House, New Delhi.

2) Topics in Algebra, I. N. Herstein, Vikas Publishing House.

**NEW/REVISED SYLLABUS FOR
M.A. / M. Sc. Mathematics (Part I) (Semester I)
(Introduced from June 2013 onwards)**

(i) Paper : MT 102

(ii) Title of Paper: Advanced Calculus

(iii) Course Outcomes:

To enable the student to;

1. study sequences of functions.
2. describe basic concept of convergence.
3. assess multivariable's for differential calculus.
4. solve extremism problems and formulate real valued functions of several variables.

(iv) A brief note:- Theorems and proofs are expected to be prepared from Mathematical Analysis by T.M.Apostol.

(v) UNIT No. of Lectures

Unit 1 : Sequences of functions: Pointwise convergence of sequences of functions, Examples of sequences of real valued functions, Definition of uniform convergence, Uniform convergence and continuity, Cauchy condition for uniform convergence, Uniform convergence and Riemann integration, Uniform convergence and differentiation, double sequence uniform convergence and double sequences, mean convergence. **15 Lectures**

Unit 2 Series of functions: Rearrangement of series, subseries, double series, Rearrangement theorem for double series, Multiplication of series, Power series, multiplication of power series, substitution theorem, reciprocal of power series, Real power series, The Taylor series generated by function, Bernstein's theorem, Binomial series, Abel's limit theorem, Taubers theorem. **15 Lectures**

Unit 3 Multivariable differential Calculus: The Directional derivatives, directional derivatives and continuity, total derivative, total derivatives expressed in terms of partial derivatives, The matrix of linear function, Jacobin matrix, Chain rule, mean value theorem for differentiable functions, A sufficient condition for differentiability, sufficient condition for equality of mixed partial derivatives, Taylor's formula for functions from R_n to R_1 . The inverse function theorem (Statement only) The implicit function theorem (Statement only) and their applications. Extrema of real valued functions of one variable, Extrema of real valued functions of several variables. **15 Lectures**

Unit 4 Path and line integrals, Multiple integrals Double integral (Theorems without proof) Application to area and volume.(Theorems without proof)Greens theorem in the plane. Application of Green's Theorem.Change of variables, special cases of transformation formula.Surface integral, change of parametric representation. Other notations for surface integrals, stoke's Theorem Curl and divergence of a Vector field. Gauss divergence Theorem. **15 Lectures**

(vi) Recommended Reading :

a) Basic Reading :- 1) Mathematical Analysis, T. M. Apostol, Second Edition, Narosa Publishing House.

2) Advanced Calculus Vol II by T. M. Apostol

**NEW/REVISED SYLLABUS FOR
M.A. / M. Sc. Mathematics (Part I) (Semester I)
(Introduced from June 2013 onwards)**

(i) Paper: MT 103

(ii) Title Of Paper: Real Analysis

(iii) Course Outcomes:

To enable the student to;

1. introduce basic concepts of real analysis.
2. illustrate different notions of real analysis.
3. compare different types of sets.
4. set relation between various analysis functions and apply limits and approximation of measurable functions.

(iv) UNIT No. of Lectures

UNIT-I: Open Sets, Closed Sets and Borel Sets, Lebesgue Outer Measure, The sigma algebra of Lebesgue Measurable Sets, Countable Additivity, Continuity and Borel-Cantelli

Lemma, Non measurable Sets. **15 Lectures**

UNIT- II: Sums, Product and Composition of Measurable Functions, Sequential Pointwise limits and Simple Approximation. Littlewood's Three Principles, Egoroff's Theorem and Lusin's Theorem, Lebesgue Integration of a Bounded Measurable Function, Lebesgue Integration of a Non-negative Measurable Function. **15 Lectures**

UNIT-III: The General Lebesgue Integral, Characterization of Riemann and Lebesgue Integrability, Differentiability of Monotone Functions, Lebesgue's Theorem, Functions of Bounded Variations: Jordan's Theorem. **15 Lectures**

UNIT – IV: Absolutely Continuous Functions, Integrating Derivatives: Differentiating Indefinite Integrals, Normed Linear Spaces, Inequalities of Young, Holder and Minkowski, The Riesz-Fischer Theorem. **15 Lectures**

(vi) Recommended Reading :

a) Basic Reading:-

1) Royden, H. L., Fitzpatrick P.M., Real Analysis. (2009) 4th edition. Prentice Hall of India, New Delhi

(iii) Course Outcomes:

To enable the student to;

1. study concept on differential equations.
2. describe basic notations in DE.
3. discuss reasons in developing advanced mathematics.
4. solve initial value problems for n^{th} order equations and study convergence of the successive approximation.

(iv) A brief note : Theorems and proofs are expected to be prepared from An introduction to ordinary differential equations by E.A. Coddington.

(v) UNIT No. of Lectures

Unit – I : Linear Equations with constant coefficients: The second order homogeneous equation, Initial value problems for second order equations, Linear dependence and independence, A formula for the Wronskian, The non-homogeneous equations of order two, The homogeneous equations of order n . **15 Lectures**

Unit - II Initial value problems for the n^{th} order equations, The non-homogeneous equation of n^{th} order. Linear Equations with variable coefficients: Initial value problems for the homogeneous equations. Solutions of the homogeneous equations, The Wronskian and linear independence, Reduction of the order of a homogeneous equation, The non-homogeneous equations, **15 Lectures**

Unit - III Greens function, Sturm Liouville theory, Homogeneous equations with analytic coefficients, The Legendre equations. Linear Equations with regular singular points: The Euler equations, Second order equations with regular singular points. **15 Lectures**

Unit – IV The Bessel equation, Regular singular points at infinity, Existence and uniqueness of solutions: The method of successive approximations, The Lipschitz condition of the successive approximation. Convergence of the successive approximation. **15 Lectures**

(iii) Course Outcomes:

To enable the student to;

1. study the mathematical artifact.
2. learn about various mathematical formulae.
3. solve problems of calculus of variations.
4. apply mathematical knowledge in real time and calculate coordinate and angles of a rigid body.

(iv) A brief note: - Theorems and proofs are expected to be prepared from books given basic readings.

(v) UNIT No. of Lectures

UNIT – I: Mechanics of a particle, Mechanics of a system of particles, conservation theorems, conservative force with examples, constraints, Generalised coordinates, D’ Alembert’s Principle, Lagrange’s equations of motion, the forms of Lagrange’s equation for non conservative system and partially conservative and partially non-conservative system, Lagrangian for charged particle in electromagnetic field, Kinetic energy as a homogeneous function of generalised velocities, Non-conservation of total energy due to the existence of non-conservative forces. Cyclic co-ordinates and generalised momentum, conservation theorems, motion of a particle under central force and first integral. **15 Lectures**

UNIT – II Functionals, basic lemma in calculus of variations, Euler- Lagrange’s equations, first integrals of Euler- Lagrange’s equations, the case of several dependent variables Undetermined end conditions, Geodesics in a plane and space, the minimum surface of revolution, the problem of Brachistochrone, Isoperimetric problems, problem of maximum enclosed area, shape of a hanging rope.Hamilton’s Principle for conservative and non-conservative systems, Derivation of Hamilton’s principle from D’Alembert’s principle, Lagrange’s equations of motion for

conservative and non-conservative systems from Hamilton's principle. Lagrange's equations of motion for nonconservative systems (Method of Lagrange's undetermined multipliers),

15 Lectures

UNIT – III Hamiltonian function, Hamilton's canonical equations of motion, Derivation of Hamilton's equations from variational principle, Physical significance of Hamiltonian, the principle of least action, Jacobi's form of the least action principle, cyclic co-ordinates and Routh's procedure. Orthogonal transformations, Properties of transformation matrix, infinitesimal rotations. **15 Lectures**

UNIT – IV The Kinematics of rigid body motion: The independent co-ordinates of a rigid body, the Eulerian angles, Euler's theorem on motion of rigid body, Angular momentum and kinetic energy of a rigid body with one point fixed, the inertia tensor and moment of inertia, Euler's equations of motion, Cayley- Klein parameters, Matrix of transformation in Cayley- Klein

parameters, Relations between Eulerian angles and Cayley- Klein parameters. **15 Lectures**

(iii) Course Outcomes:

To enable the student to;

1. analyze various methods in numerical analysis.
2. define scientific and engineering computation.
3. assess different iteration methods.
4. calculate Lagrange and Newton interpolation. solve different mathematical problems using numerical analysis.

(iv) A brief note: Theorems and proofs are expected to be prepared from Numerical methods for scientific and Engineering Computation' M. K. Jain, S. R. K. Iyengar, R. K. Jain.

(v) UNITS No. of Lectures

Unit 1 Transcendental & polynomial equations: Bisection method, Iteration methods based on First degree equation (Secant method, Regula Falsi method, Newton Raphson method), Rate of Convergence, Iteration methods, Birge – Vieta method, Bairstow method, **15 Lectures**

Unit 2 System of linear algebraic equations and eigen value problems: Iteration methods (Jacobi iteration method, Gauss seidel iteration method) convergence analysis, Matrix factorization methods (Doo little reduction, Crout reduction), Eigen values and eigenvectors, Gerschgorin theorem, Brauer theorem, Jacobi method for symmetric matrices, Householder's method for symmetric matrices, power method. **15 Lectures**

Unit 3 Interpolation differentiation and integration: Lagrange and Newton interpolation, Truncation error bounds, Newtons divided difference interpolation, finite difference operators, numerical differentiation, methods based on interpolation, numerical integration, Error analysis, methods based on interpolation Newton cotes methods, Error estimates for trapezoidal and Sampson's rule. **15 Lectures**

Unit 4 Numerical solution of differential equations: Euler's method, analysis of Euler's method, Backward Euler's method, order of Euler's method, Explicit Runge – Kutta method of order two and four, mid point method, Taylor series method, convergence and stability of numerical methods, Truncation error, error analysis. **15 Lectures**

To enable the student to;

1. describe concept of differential geometry.
2. study the geometry of curves.
3. understand basic notations of surfaces.
4. calculate, coordinate patches and surfaces and apply orthogonal transformations in differential geometry.

(iv) A brief note: Theorems and proofs are expected to be prepared from O'Neill, B. Elementary Differential geometry, Academic Press, Revised Edition 2006.

(v) UNIT No. of Lectures

Unit – I Vector space, Euclidean space R^3 . Tangent vectors and vectors fields, Frame fields, Natural frame fields, Directional derivative, Curves in R^3 and reparametrization of curves, standard curves, Speed of curve, length of curve. 1- forms, differential forms. **No. of Lectures 15**

Unit – II The Frenet Formulae for unit speed curve. Frenet approximation of curves, Arbitrary speed curves, Frenet formulas for arbitrary speed curve, Covariant Derivative. Isometries of R^3 , Orthogonal transformations. **No. of Lectures 15**

Unit – III Coordinate patches, surface in R^3 , simple surface, cylinder surface, surface of revolution, parametrization of a region, parametrization of cylinder and surface of revolution, smooth overlapping patches, tangent and normal vector fields on a surface. **No. of Lectures 15**

Unit – IV The shape operator of surface M in R^3 , normal curvature, principal curvatures, Gaussian and mean curvatures, Umbilic points, fundamental forms of a surface, computational techniques, special curves on surface, asymptotic and geodesic curves. **No. of Lectures 15**

SHIVAJI UNIVERSITY, KOLHAPUR
CENTRE FOR DISTANCE EDUCATION

Vision:

Developing human resource required for the Knowledge Society.

Mission:

Disseminate and facilitate Higher Education to marginalized and deprived masses.

Goals:

1. To Provide educational opportunities:
2. To more number of distance learners from any age group.
3. To different sections of the society, who are for some reason unable to pursue education and bring them into the main stream.
4. To the class of the society who has remained deprived because of domestic responsibilities and social restrictions.
5. To the working class who choose to study at their own place and pace.
6. To all sections of the society irrespective of caste, religion, gender, area of origin, social and financial status etc.
7. At affordable fee.
8. To offer courses of study along with Self Instructional Material, contact sessions, counseling facilities, library and internet facilities through designated Study Centers.
9. As per National Educational Policies requirement we need to increase Gross Enrollment Ratio.

• **M.Com.Programme**

Programme Educational Objectives:

Program Educational Objectives (PEOs) The Post graduate (M.Com.) will

1. PO1 – Identify the business management skills and inculcate the ability to apply these skills.
2. PO2- Develop students who intent to take up start up or grow existing business.
3. PO3 - Demonstrate a global economic outlook with ability to identify the global business

4. PO4 –Demonstrate the skills of analysing the data and facilitate solution to managerial problems.
5. PO5 - Identify the contemporary business problems, exploring the opportunities, designing business solutions and demonstrate ethical standards in organizational decision making.
6. PO6 - Develop a research aptitude among the students to understand and overcome various business and social issues
7. PO7 - Collaborate and lead teams across organizational boundaries and demonstrate leadership qualities, maximize the uses of diverse skill of team members in the related context.
8. PO8–Application of knowledge of accounting, costing and taxation to analyse and solve business problems.

Program Specific Outcomes of

After Completing Masters in Commerce (M.Com.) Students are able to:

1. PSO1 – Programme facilitates the theoretical as well as practical knowledge about the different aspects of the business perspectives which prepare them to work in various entities
2. PSO2 – Attain the expert knowledge in various domain areas like management, economics, accounting, costing and taxation
3. PSO3 – Provide ability to work in various industries like manufacturing, service, retail, banking and finance etc.
4. PSO4. – Programme intends to make the students able to set up own business ventures and promote entrepreneurship.

Course outline/Structure/

Shivaji University Distance Education offers Master of Commerce course. It is two years post graduate course and candidates seeking admission into this course must have Bachelors' degree from recognized university.

1. Eligibility Criteria:

Any person who has passed Bachelor of Commerce (B. Com.) degree of this University or of any other University recognized by this University as equivalent.

2. Medium of instructions:

M.Com. Programme is available in English medium only.

3. Fee Structure:

Sr. No.	Course Name	Exam	Registration	Study Centre	Application	Prospectus	SIM	E Suvidha	Dhwaj Nidhi	Total
1.	M. Com.-I	1210	1690	845	20	20	1405	50	10	5250
2.	M. Com.-II	1210	1690	845	20	20	1405	50	10	5250

4. General Rules for M. Com. Programme:

- Implementation of semester system:** The semester system shall be implemented for: M.Com. Part-I Semester-I and Semester- II from Academic year 2020-21 and M.Com. Part-II Semester-III & Semester-IV from Academic year 2021-22.
- Pattern of semester system:** There shall be 80:20 patterns for the purpose of semester examinations.
- Scheme of Internal Assessment:** There shall be continuous internal assessment for M.Com. Programme. Internal Examination will be compulsory for all students. There will be separate passing head for internal examination of each paper. The scheme for internal assessment will be as mentioned below: The Question paper in each semester (for each paper) shall be of 100 marks wherein 80:20 pattern will be accepted. For this purpose following will be the pattern for 'internal assessment scheme i) M.Com. Part - I and II there will be Practical for 10 marks and Seminar for 10 marks for each semester (The 80:20 pattern will be applicable to Distance education students. However, for internal work there will be Home assignment of 20 marks for each paper of all semesters).
The division of marks for Paper VI of each Special group will be as 60 marks for project work and 40 marks for Viva-voce. The evaluation of 100 marks will be done at the time of viva-voce. However, this division will not be applicable to the

students on distance mode. The students on distance mode shall have to appear for a separate paper prescribed by the authorities.

- 4. Duration of semester examination for each paper:** The duration of semester examination for each paper of 80 marks shall be of three hours.

Equivalence of papers and chances for the students in pre-revised pattern (i.e. annual pattern) - Two additional chances shall be provided for the repeater students of the annual pattern. After this the concerned students will have to appear as per the equivalent paper given under revised pattern.

5. Standard of passing:

The Standard of passing shall be 40% where the student will have to score 32 marks out of 80 and 8 Marks out of 20 in each paper. There will be a separate head of passing in Theory i.e. (University examination) and Internal Examination.

N.B.:- A student will be allowed to keep term for M. Com. Part-II if he/she passes in all papers of Part I or fails in Part I in any of or all the heads of passing (semester I & Semester II) taken together.

- 6. Result:** The result of each semester shall be declared as Pass or fail.
- 7. Revised Rules-** These rules will be gradually implemented with effect from the academic year 2019-20 for M.Com. Programme. However, the existing (i.e. pre-revised) ordinance and rules shall remain in force for the students of pre-revised pattern during the transition period.
- 8. Course Structure - M. Com. Part-I (Sem.-I & II):**

बी. ए. मराठी कार्यक्रमाची फलनिष्पत्ती

बी. ए. मराठी हा अभ्यासक्रम पूर्ण केल्यानंतर बहिःस्थ विद्यार्थ्यांना खालील क्षमता आणि कौशल्ये प्राप्त होतात.

१. विद्यार्थ्यांची मराठी भाषा आणि साहित्य विषयी अभिरूची विकसित होते.
२. विद्यार्थ्यांमध्ये सामाजिक बांधिलकीची जाण अधिक दृढ होते. व साहित्यातील जीवनदर्शन, समकाल, व्यवहार यांची जाणीव निर्माण होते.
३. उपयोजित भाषिक कौशल्ये प्राप्त झाल्यामुळे विद्यार्थ्यांचा सर्वांगीण विकास होतो.
४. भाषेच्या अभ्यासाने विद्यार्थ्यांचा व्यक्तिमत्त्व विकास घडून येतो.
५. वृत्तपत्रे, सभासंमेलने, व्याख्याने, आकाशवाणी, पत्रव्यवहार, दूरदर्शन, सूत्रसंचालन इत्यादी क्षेत्रात विद्यार्थ्यांना आपले करियर करता येते.

APPLICATION OF OPERATION RESEARCH IN MANAGEMENT

Course Outcome : To enable student to

1. describe the concepts of or.
2. solve linear programming problems.
3. give solution over assignment and transportation related problems.
4. elaborate queuing (wating line) and inventory models.
5. apply network analysis for project planning and queuing for inventory situations.

Unit-1: Introduction to OR

Concepts, Phases of OR, Application potential to diverse Problems in business & industry, scope & limitations.

Unit-2: Linear programming (LP)

Concepts, Formulation of models, diverse problems graphical solutions –simple algorithm –use of slack / surplus / artificial variables max. / Min-big. M problems (optimum sensitivity analysis)

Unit-3: Assignment problems (AP)

Concepts, formulation of model-Hungarian –method of solution. /maximisation, /.- balanced/unbalanced–prob.

Unit-4: Transportation problems

Concepts, formulation of model- solution procedure for initial feasible solution & optimality check- balance/ unbalance- maxi./ mini.-Case of degeneracy.

Unit-5: Queuing (WATING LINE)- Models

Concepts, types of queuing system characteristics of queuing model, queues in series & parallel birth & Death process. Prob. Based on the results of (M/M/I) model.

Unit-6: Inventory models

Types of inventories, cost involved, deterministic model, Economic Order Quantity (EOQ) & Economic Batch Quantity (EBQ) with finite production rate, EOQ under price break,- determination of safety stock & reorder levels- lead time.

Unit-7: Network analysis- Minimal spanning tree problems

Shortest route problems, Maximal flow in capacitated network- Concept & solution, Algorithm as applied to prob.-project planning & control by use of CPM/PERT Concepts.

Unit-8: Simulation

Concept- Areas of application- Monto Carlo simulation & its application to problems - in queuing Inventory situations.

1. illustrate the objectives, motivation of research and research design.
2. determine measurement and scaling techniques and methods of data collection.
3. test the hypothesis and samples.
4. interpret the collected data, draw the conclusions and write the research report.

5. adapt research in functional areas of management.

Unit-1: Meaning, objectives & Motivation in research

Types of research –Research Approach - Research process, relevance & scope of research in management.

Unit-2: Research Design-

Features of good Design, Types of Research Design, Basic principles of experimental Design. Sampling Design-steps in sample Design Characteristics of a good Sample Design, random samples & random sampling Design.

Unit-3: Measurement & scaling techniques

Errors in measurement test of sound measurement, scaling & Scale construction technique.

Unit-4: Methods of data collection

Primary data – Questionnaire and interviews. Collection of secondary data. Processing and analyzing data – Measures of central tendency, measures of dispersion and skew ness, simple and multiple regression analysis.

Unit-5: Testing of Hypothesis

Procedure for hypothesis testing. Use of statistical techniques for testing of hypothesis.

Unit-6: Testing of Samples

Sampling distribution, sample theory determining size of sample, confidence level.

Unit-7: Interpretation of data

Techniques of Interpretation, report writing, layout of a project report.

Unit-8: Research in general management

Research in functional areas – marketing, finance, HR, production.

FINANCIAL MANAGEMENT

Course Outcome : To enable student to

1. describe the concept of financial management.
2. explain the concept of working capital management.
3. compute different types of ratios, cost of capital and operating, financial and combined leverage.
4. examine budget, budgetary control system and capital budgeting.
5. elaborate the concept of management reporting.

Unit-1: Financial Management

Introduction, Meaning, Objective, role and functions of financial management

Unit-2: Ratios Analysis

Meaning, Nature and interpretation of ratios Profitability, Solvency, Leverage, Turnover ratios, Computation and Comparison of ratios.

Unit-3: Working capital management

Meaning, Significance, type and determinants of working capital, Operating cycle and estimation of working capital, requirement, Sources and application of working capital.

Unit-4: Cost of Capital

Meaning and Significance of cost capital. Capital structure, Calculation of cost of capital-preference, equity and debt.

Unit-5: Operating & Financial Leverage

Meaning, Concept and measurement of leverage. Calculation of operating, financial and combined leverage.

Unit-6: Budget and Budgetary Control

Meaning, objective, limitations of budgetary control system. Types of budget. Sales, purchase, Fixed Flexible, Cash, Master budget.

Unit-7: Capital Budgeting

Concept, meaning & importance of capital budgeting. Factors influencing budgeting Investment evaluation criterion –NPV, PI, PBP, IRR.

Unit-8: Management Reporting

Meaning, objective, essentials of good report. Characteristics of good reporting system. Types of report.

HUMAN RESOURCE MANAGEMENT

Course Outcome : To enable student to

1. describe the concept of hrm and differentiate between traditional vs. strategic hrm.
2. explain hrm in dynamic environment.
3. outline the human resource planning, procurement and placement.
4. evaluate maintains of manpower, compression management and employee separation and superannuation.
5. elaborate the new trends in hrm.

Unit-1: Human Resource Management

Concept, nature, scope & functions-Operative & Managerial Difference between personnel Management & Human Resources Management Evolution & Development of Human Resources Management from Trade Union Movement Era to Contingency Approach, Strategic human resource Management-Concept Traditional HRM Versus Strategic HRM

Unit-2: HRM in a Dynamic Environment

Impact of Technology on HRM: TQM Approach in HRM Environment of Role of HRM- External & Internal Environment.

Unit-3: Human Resources Planning

Meaning Objective Importance of Human Resources planning Human Resources Planning process. Problem & Barriers of Human Resources planning Job Analysis- Concept Uses process Job Description & Job Specification-Purpose & Uses

Unit-4: Procurement and Placement

Recruitment- Definition, Objectives, Sources of Recruitment Factors of Recruitment Process. Selection Definition, Essentials of Selection Process. Concepts of Placement-Induction- Programme; Socialisation, phases of Socialisation Process.

Unit-5: Maintenance of Manpower

Employee Health & Safety-Concept Occupational Hazards & Diseases, Protection against Hazards, Statutory provisions concerning health Accidents- Types & Causes : Safety-Significance Safety measures Social Security-Concept, Objective, Scope, Types.

Unit-6: Compensation Management

Wages & Salary administration-objective, Methods of Wage Payment, Factors affecting wage & salary level. Incentive- Concept, Types Benefits- Concept, Rational, Types.

Unit-7: Employee Separation and Superannuation

Exit policy, VRS and Lifetime Employment. Lay-off & Retrenchment, internal & External mobility,

Unit-8: New Trends in HRM

New approach –Virtual Organization, Flexi time flexi work, Moon lighting by employees. Human Resources Accounting-Meaning, Objective, Method, Limitation. Tool of HR research.

PRODUCTIONS AND OPERATION MANAGEMENT

Course Outcome : To enable student to

1. describe concept of production management.
2. select plant location and plant layout.
3. evaluate production systems and production planning control techniques.
4. elaborate the concept quality management.
5. adapt strategies related to maintenance and
6. management of material, inventory, purchasing and storing.

Unit-1: Production Management

Nature & scope, Activities, Interface with other functional areas such as Marketing Personnel Finance, Purchasing, Maintenance, Research and Development.

Unit-2: Plant location and plant Lay Out

Need-Selection of exact location, Criteria for selection, plant Lay out-Importance, Types of Plant Lay Out.

Unit-3: Types Of Production Systems

Intermittent and continuous, Job Batch, Mass and flow production systems, Assembly lines balancing, E-Manufacturing- Emerging Manufacturing Technology, Option and Choice.

Unit-4: Production Planning Control

Objectives, - functions Elements of scheduling, - Master Scheduling, priority planning, Facility Loading, Sequencing problem of Scheduling. Production Control-Control Techniques.

Unit-5: Quality Management

Meaning and Importance, Inspection, and Quality Control-Purpose of Quality Control- Cost of Quality- Total Quality Management

Unit-6: Maintenance and Material Management

Objectives, types of maintenance-Primary and Secondary Objective of Material Management, Scope and Objective of Material Management Organisation.

Unit-7: Purchasing and Store Management

Importance of Purchasing-Purchasing Procedure and policies. Store Keeping- Objective, Importance of Store Lay Out.

Unit-8: Inventory Management

Type of inventory Management Systems, Fix Order Quantity periodic Review System, Selective Control of Inventory – ABC Analysis, VED Analysis.

1. describe Management Information System.
2. explain challenge and foundation of management information system.
3. distinguish between models of database management and information systems to pursue competitive strategies.
4. develop and evaluate information system.
5. apply MIS in different functional areas of management for decision making.

Unit-1: To MIS Introduction

Concept of MIS, Role & MIS Uses of MIS.

Unit-2: The Challenge Of Information system

Difference Between Computer Literacy and Information System Literacy. Information needs of different Management Measure type of information System in organisation Decision Support System- Characteristics Components, Measure DSS applications. Group Decision

Support Systems - Elements, Characteristics,& Application Executive Support Systems– Role Development & Benefits of ESS.

Unit-3: Foundations Of Information System

Devices & tools– Hardware, Software & Telecommunication. Managing Data Resources. organising Data in a Traditional File Environment. Modern Database Environment- Logical & physical View of data.

Unit-4: Database Management System

Three Model of date, Hierarchical data model, Network data modal, Relational data modal. Database trends-Distributed, Processing & Distributed database. Object Oriented & Hypermedia database. Management requirement for database system- Data administration, Data planning, Modeling & Modeling Methodology. Challenges in Database Management.

Unit-5: Strategic Role of Information System

Information of strategic resources concept of strategic information system. Contribution of information systems to pursue competitive strategies.

Unit-6: Building Information System

Contemporary approach as a planned organizational change. System development & organizational change. Overview of system development. System analysis System design, Completing system development process. Alternative system building method- System life cycle proto typing, Application of software packed, & use development & outsourcing.

Unit-7: Information System Success And Failure

Major problem areas in information system, causes of information system success and failure, Evolution of success of information systems. Principle causes of information system failure, appropriate strategies to implement the process.

Unit-8: Application Of MIS In Various Functional Areas

Marketing information systems, financial information systems, human resource information systems, production information systems.

APPLICATION OF OPERATION RESEARCH IN MANAGEMENT

Course Outcome : To enable student to

1. describe the concepts of or.
2. solve linear programming problems.
3. give solution over assignment and transportation related problems.
4. elaborate queuing (wating line) and inventory models.
5. apply network analysis for project planning and queuing for inventory situations.

Unit-1: Introduction to OR

Concepts, Phases of OR, Application potential to diverse Problems in business & industry, scope & limitations.

Unit-2: Linear programming (LP)

Concepts, Formulation of models, diverse problems graphical solutions –simple algorithm –use of slack / surplus / artificial variables max. / Min-big. M problems (optimum sensitivity analysis)

Unit-3: Assignment problems (AP)

Concepts, formulation of model-Hungarian –method of solution. /maximisation, /.- balanced/unbalanced–prob.

Unit-4: Transportation problems

Concepts, formulation of model- solution procedure for initial feasible solution & optimality check- balance/ unbalance- maxi./ mini.-Case of degeneracy.

Unit-5: Queuing (WATING LINE)- Models

Concepts, types of queuing system characteristics of queuing model, queues in series & parallel birth & Death process. Prob. Based on the results of (M/M/I) model.

Unit-6: Inventory models

Types of inventories, cost involved, deterministic model, Economic Order Quantity (EOQ) & Economic Batch Quantity (EBQ) with finite production rate, EOQ under price break,- determination of safety stock & reorder levels- lead time.

Unit-7: Network analysis- Minimal spanning tree problems

Shortest route problems, Maximal flow in capacitated network- Concept & solution, Algorithm as applied to prob.-project planning & control by use of CPM/PERT Concepts.

Unit-8: Simulation

Concept- Areas of application- Monto Carlo simulation & its application to problems - in queuing Inventory situations.

1. illustrate the objectives, motivation of research and research design.
2. determine measurement and scaling techniques and methods of data collection.
3. test the hypothesis and samples.
4. interpret the collected data, draw the conclusions and write the research report.

5. adapt research in functional areas of management.

Unit-1: Meaning, objectives & Motivation in research

Types of research –Research Approach - Research process, relevance & scope of research in management.

Unit-2: Research Design-

Features of good Design, Types of Research Design, Basic principles of experimental Design. Sampling Design-steps in sample Design Characteristics of a good Sample Design, random samples & random sampling Design.

Unit-3: Measurement & scaling techniques

Errors in measurement test of sound measurement, scaling & Scale construction technique.

Unit-4: Methods of data collection

Primary data – Questionnaire and interviews. Collection of secondary data. Processing and analyzing data – Measures of central tendency, measures of dispersion and skew ness, simple and multiple regression analysis.

Unit-5: Testing of Hypothesis

Procedure for hypothesis testing. Use of statistical techniques for testing of hypothesis.

Unit-6: Testing of Samples

Sampling distribution, sample theory determining size of sample, confidence level.

Unit-7: Interpretation of data

Techniques of Interpretation, report writing, layout of a project report.

Unit-8: Research in general management

Research in functional areas – marketing, finance, HR, production.

M. B. A. Distance Mode**Semester - I****ACCOUNTING & FINANCE FOR MANAGERS****Course outcomes: to enable the student to**

1. describe the concepts of financial accounting, book accounts and use of computers in accounts.
2. compare between financial accounting and cost accounting.
3. differentiate between financial accounting – cost accounting – management accounting.
4. do the analysis of financial statements.
5. apply the marginal costing and cost volume profit analysis knowledge for decision making.

unit-1: basic principles of financial accounting

accounting concepts, convention & fundamental accounting assumptions

unit-2: books of accounts

- a) journal, ledger, subsidiary books
- b) trial balance & final accounts (trading, p&l a/c & b/s)

unit-3: use of computers in accounting

meaning, role, terms, tally packages in accounting, recent trends

unit-4: cost accounting

meaning, scope of cost accounting, distinction between financial & cost accounting.

unit-5: elements of cost

material labour, overheads classification of cost, preparation of cost sheet

unit-6: management accounting

concept, meaning, scope, limitations of management accounting, functions of finance manager
distinction between financial accounting – cost accounting – management accounting.

unit-7: analysis of financial statements

nature, objectives, uses & limitations of financial statements, techniques of financial analysis-
comparative financial statements, common size financial statements, trend percentage ratios.

unit-8: marginal costing & cost volume profit analysis concept

marginal costing – contribution key factor, bep, mos, decision making through cvp analysis.
(practical problems on topic 2 & 8 & the remainings topic theory only)
remaining topics – theory.

M. B. A. Distance Mode**Semester - I****MATHEMATICS & STATISTICS FOR MANAGEMENT****Course Outcomes: To enable the student to**

1. describe the concepts of 'functions, limits and derivatives' in business and economics.
2. apply the concept of determinants and matrices in business and economics.
3. solve the problems related to mathematics of finance.
4. make use of central tendency for business related issues.
5. apply knowledge related to correlation and regression for business decisions.

Unit-1: Functions

Meaning of functions, to find of (x) if x is known, functions used in business and economics, demand functions, supply function, cost function, revenue profit function, Newton's divided difference formula for unequal interval to determine the form of a function.

Unit-2: Limits & Derivatives

Meaning of limits, meaning of Derivatives, Working rules of derivatives, application of derivatives to business & economics—marginal cost, marginal revenue, maximization & minimization using second order derivative.

Unit-3: Determinants

Meaning of determinants, Evaluation of second & third order determinants Cramer's rule.

Unit-4: Matrices

Meaning of matrix, order of matrix, addition of subtraction & multiplication of matrices, unit matrix, transpose of matrix, equality of two matrices, adjoint of matrix, universe of matrix, scalar multiplication of a matrix, Application of matrices in business.

Unit-5: Mathematics of finance

Interest calculation, annuity, present value annuity, present value concept in investment.

Unit-6: Meaning of Central Tendency

Concept of Mean, Median & Mode, problems only on Mean, Measure of Dispersion-range, mean deviation, quartile deviation Standard deviation & Variance.

Unit-7: Correlation

Definition of correlation, Types of correlation Karl Pearson's correlation coefficient & its interpretation (continuous data be omitted)

Unit-8: Regression

Meaning of regression, least square method, linear & non –linear regression, explained & unexplained variations

M. B. A. Distance Mode**Semester - I****MANAGERIAL ECONOMICS****Course Outcomes: To enable the student to**

1. describe the concept of managerial economics.
2. apply the concept of demand analysis and the market structure for the business.
3. analyze concept of production, cost and pricing practices useful for business.
4. take decision and risks regarding the business.
5. design and develop profit management systems and decide business policies.

Unit -1: Introduction To Managerial Economics

Meaning, Nature Features & Significance Of Managerial Economics. Scope Of Managerial Economics.

Unit-2: Demand Analysis

Meaning, Types Of Demands, Law Of Demand, Consumer Welfare – Measuring Consumer Welfare Using Demand Curve. Function Elasticity Of Demand, Policy Implications Of Elasticity Of Demand-Revenue Relationship. Demand Forecasting.

Unit-3: Market Structure

Classification Of Market Structure, Price & Output Determination In Perfect Competition. Monopoly, Price Discrimination, Monopolistic Competition & Oligopoly.

Unit-4: Production & Cost

Production Function, Economies Of Scale Least Cost Combination, Cost Concept, Short Term And Long Term Cost Output Relationship, Cost Curves, Break Even Point.

Unit-5: Pricing Practices

Cost Plus Pricing, Incremental Pricing, Multiple Pricing, Specific Pricing Problems, Price Dissemination.

Unit-6: Decision Analysis

Business Decision-Making, Certainty, Risk Certainty And Uncertainty, Pay-Off Matrix, Source Of Business Risk. Risky Decisions, Risk Premium & Risk Adjustment

Unit-7: Profit Management

Nature Measurement And Role Of Profit, Theories Of Profit Profit, Planning And Control.

Unit-8: Macro Economics & Analysis

Business Cycle & Business Policies, Theories Of Business Cycle. Monetary & Non-Monetary.

M. B. A. Distance Mode**Semester - I****INFORMATION TECHNOLOGY FOR MANAGEMENT****Course Outcomes: To enable the student to**

1. acquaint with concepts of ICT.
2. describe computer as a tool of ICT.
3. explain different system programmes and operating systems : windows.
4. discuss the concepts of computer networking and internet.
5. adapt skills related to e-commerce.

Unit-1: Introduction to IT

Concept, Component, IT application in Management

Unit-2: Computer as a tool of IT

Computer Hardware, software, input & output devices. Number system, ASCII, BCD, EBCDIC Codes, Source code, Languages & package.

Unit-3: System program

Assembler, Compiler, & interpreter (only introduction & function), Linkers & loader,

Unit-4: Operating system

Operating system architecture & Operating system function, Windows, Linux (only introduction).

Unit-5: Windows

Basic commands, component of MS-OFFICE, Word, Excel, Power-Point (Basic Application of MS-OFFICE)

Unit-6: Computer Networking

Computer Network – Introduction to LAN, WAN, Typology for LAN.

Unit-7: Internet

Internet search engine, Browsing & Surfing, modem, communication lines, WAP, Blue Tooth.

Unit-8: E - Commerce

Types of E- Commerce, Applications of E-commerce.

BUSINESS COMMUNICATION

Course Outcomes: To enable the students to

1. acquaint with the concept of 'communication'.
2. acquire skills related to writing business letters, application letter and report writing.
3. take part in oral communication such as lswr and group discussions and interviews.
4. adapt skills related to non verbal expressions.
5. develop business communication strategy related to electronics media and communications.

Unit-1: Communication

Leaning, Importance & objectives - Principles of Communication, forms of communication, Process of communication, Barriers of effective communication, Techniques of effective Communication communication.

Unit-2: Written Communication Business Letters

Types, inquiries, Circulars, Quotations, Orders, Acknowledgments Executions, Complaints, Claims & adjustments, Collection letter Banking correspondence, Agency correspondence.

Unit-3: Application Letter

Bio-data, Interview Letters, Letter of Reference, Letter of Appointments, Confirmation, Promotion, Retrenchment, Resignations

Unit-4: Report writing

Types of reports, Components of formal reports, Business Reports, Reports by individual, Report by committee.

Unit-5: Oral Communication

Listening & Speaking, Meeting speeches, & techniques of electing response, probing questions, Recording and closing, Observations, methods.

Unit-6: Group discussions & Interviews

Unit-7: Non verbal Expressions

Body Languages, Gestures, Postures, Facial Expressions, Dress codes.

Unit-8: Application of Electronics media & communications

Telecommunication, teleconferencing, FAX, E-mail.

ORGANISATIONAL BEHAVIOUR

Course Outcome : To enable student to

1. differentiate between the various concepts of: organizational behaviour, individual behaviour, learning behaviour.
2. compare the theories of motivation and the job related motivational factors.
3. acquire coping strategies of stress.
4. develop interpersonal and leadership skills.
5. adapt skills and techniques related to organizational change.

Unit-1: Organisational Behaviour

Concept, Nature, Disciplines Contributing to OB-Psychology sociology, Anthropology, Social Psychology, Economics, Political Science. Historical Overview of OB Approaches to the study of OB- Human Resource Approach, Contingency Approach, Productivity Approach, System Approach Model of OB- Autocratic Model Custodial Model, Supportive Model, Collegial Model, Other Model- Normative, Empirical, Ecological, Non-Ecological, Ideographic, Nomothetic.

Unit-2: Individual Behaviour

Personal Factors-Biographical Characteristics & Learned Characteristics, Environmental factor & Organizational factor Personality: Concept, Determinants of personality, Development of personality. Perception: Meaning, Nature, Process, Barriers to perceptual accuracy. Attitudes & Value: Concept, component of Attitude, Measurement of Attitude, Type of Value, Sources of Value.

Unit-3: Learning & Behaviour

Definition, Nature of Learning, Types of Learning, theories of Learning, Factors affecting Learning, Behaviour Modification-Steps in Modification, Criticism.

Unit-4: Motivation

Concept, Theories of Motivation, Maslow's Need Hierarchy, Herzberg's Motivation Hygiene Theory, Alderfer's ERG theory, McClelland's Achievement Theory, Vrooms Expectancy Theory, Porter-Lawler Model, McGregor's Theory 'X' & Theory 'Y' Theory 'Z' Equity theory. Money & Motivation; Non-Financial incentive & Motivation; Job Design & Motivation; Quality

of work Life (QWL); Job Enlargement Job satisfaction- Concept Determinants of job satisfaction, Effect of job satisfaction.

Unit -5: Stress

Concept, Causes-Individual Stressors; Group Stressors; Organisational Stressors; Environmental Stressors. Effects of Stress, Coping Strategies for stress.

Unit -6: Interpersonal Behaviour

Meaning. Transactional Analysis; Johari Window Group Dynamic-Types of group; theories of group Formation; Conflict-Concept; Types of Conflict-Intrapersonal & Group Conflict; Resolution of Conflict.

Unit -7: Leadership

Meaning, Function, Theories of Leadership – Trait Theory, Behavioural Theory, Fielders Contingency Model, Hansey Blanchard Situational Theory, pathgoal Theory, Vroom- Vetten contingency Model, Leader Member Exchange Theory, Charismatic Leadership Theory, Managerial Grid, Likerts Management System. Leadership Style: Leadership Style in Indian Organization Power and Authority-Concept, Types of Power, Concept of Policies, Distinction between Authority and power, Theories of Authority.

Unit -8: Macro Perspective O.B

Organizational Culture-Characteristics, Creating the Organizational Culture; Emerging issue in organization Culture, Managing diversity Within & across the culture. Organization Change: Nature, Factors in organization Change, Resistance to change; Overcome resistance to change. Organizational Development: Characteristics, Techniques of OD-sensitivity training, Grid training; Process Consultation; Team Development; Survey Feedback; Third party intervention, Role playing; Structural Techniques.

MARKETING MANAGEMENT

Course Outcome : To enable student to

1. describe the concept of marketing management.
2. explain marketing research process & marketing information system.
3. illustrate consumer behaviour and market segmentation and product positioning.
4. examine product strategy, pricing strategy and promotional strategy.
5. adapt physical distribution strategy for selecting an appropriate channel for logistics management.

Unit-1: Marketing Management

An introduction, meaning & definition of marketing, scope of marketing, Core concepts of marketing, company orientation towards marketplace, marketing environment, marketing planning process.

Unit-2: Marketing research & Marketing Information System

Introduction to marketing research, Importance of marketing research, scope of marketing research, marketing research process, Marketing Information System

Unit-3: Consumer Behavior

Meaning & definition of consumer behavior importance of consumer behavior, factors influencing consumer behavior, buying decision process.

Unit-4: Market segmentation

Meaning & importance of segmentation, Bases for consumer market segmentation selection of segment market targeting product positioning.

Unit-5: Product Strategy

Meaning & definition of product, classification of product, product mix decision, product line decision, product life cycle, marketing strategies at different phases of PLC, new product development process, Branding- meaning advantages & disadvantages, trademark, Packaging- meaning, function of packaging

Unit-6: Pricing Strategy

Meaning Pricing objectives, Factors affecting pricing price determination policies, pricing methods, setting the price.

Unit-7: Promotion strategy

Marketing communication, promotion mix-publicity, Advertising-meaning, 5 M's of advertising, objective of advertising types of advertising media Sale promotion-nature & importance of sales promotion, techniques of sales promotion, personal Selling- nature & importance, process of personal selling.

Unit-8: Physical Distribution Strategy

Channels of distribution-concept & importance channels of distribution for consumer product & industrial product, selecting an appropriate channel logistics management

FINANCIAL MANAGEMENT

Course Outcome : To enable student to

1. describe the concept of financial management.
2. explain the concept of working capital management.
3. compute different types of ratios, cost of capital and operating, financial and combined leverage.
4. examine budget, budgetary control system and capital budgeting.
5. elaborate the concept of management reporting.

Unit-1: Financial Management

Introduction, Meaning, Objective, role and functions of financial management

Unit-2: Ratios Analysis

Meaning, Nature and interpretation of ratios Profitability, Solvency, Leverage, Turnover ratios, Computation and Comparison of ratios.

Unit-3: Working capital management

Meaning, Significance, type and determinants of working capital, Operating cycle and estimation of working capital, requirement, Sources and application of working capital.

Unit-4: Cost of Capital

Meaning and Significance of cost capital. Capital structure, Calculation of cost of capital-preference, equity and debt.

Unit-5: Operating & Financial Leverage

Meaning, Concept and measurement of leverage. Calculation of operating, financial and combined leverage.

Unit-6: Budget and Budgetary Control

Meaning, objective, limitations of budgetary control system. Types of budget. Sales, purchase, Fixed Flexible, Cash, Master budget.

Unit-7: Capital Budgeting

Concept, meaning & importance of capital budgeting. Factors influencing budgeting Investment evaluation criterion –NPV, PI, PBP, IRR.

Unit-8: Management Reporting

Meaning, objective, essentials of good report. Characteristics of good reporting system. Types of report.

HUMAN RESOURCE MANAGEMENT

Course Outcome : To enable student to

1. describe the concept of hrm and differentiate between traditional vs. strategic hrm.
2. explain hrm in dynamic environment.
3. outline the human resource planning, procurement and placement.
4. evaluate maintains of manpower, compression management and employee separation and superannuation.
5. elaborate the new trends in hrm.

Unit-1: Human Resource Management

Concept, nature, scope & functions-Operative & Managerial Difference between personnel Management & Human Resources Management Evolution & Development of Human Resources Management from Trade Union Movement Era to Contingency Approach, Strategic human resource Management-Concept Traditional HRM Versus Strategic HRM

Unit-2: HRM in a Dynamic Environment

Impact of Technology on HRM: TQM Approach in HRM Environment of Role of HRM- External & Internal Environment.

Unit-3: Human Resources Planning

Meaning Objective Importance of Human Resources planning Human Resources Planning process. Problem & Barriers of Human Resources planning Job Analysis- Concept Uses process Job Description & Job Specification-Purpose & Uses

Unit-4: Procurement and Placement

Recruitment- Definition, Objectives, Sources of Recruitment Factors of Recruitment Process. Selection Definition, Essentials of Selection Process. Concepts of Placement-Induction- Programme; Socialisation, phases of Socialisation Process.

Unit-5: Maintenance of Manpower

Employee Health & Safety-Concept Occupational Hazards & Diseases, Protection against Hazards, Statutory provisions concerning health Accidents- Types & Causes : Safety-Significance Safety measures Social Security-Concept, Objective, Scope, Types.

Unit-6: Compensation Management

Wages & Salary administration-objective, Methods of Wage Payment, Factors affecting wage & salary level. Incentive- Concept, Types Benefits- Concept, Rational, Types.

Unit-7: Employee Separation and Superannuation

Exit policy, VRS and Lifetime Employment. Lay-off & Retrenchment, internal & External mobility,

Unit-8: New Trends in HRM

New approach –Virtual Organization, Flexi time flexi work, Moon lighting by employees. Human Resources Accounting-Meaning, Objective, Method, Limitation. Tool of HR research.

PRODUCTIONS AND OPERATION MANAGEMENT

Course Outcome : To enable student to

1. describe concept of production management.
2. select plant location and plant layout.
3. evaluate production systems and production planning control techniques.
4. elaborate the concept quality management.
5. adapt strategies related to maintenance and
6. management of material, inventory, purchasing and storing.

Unit-1: Production Management

Nature & scope, Activities, Interface with other functional areas such as Marketing Personnel Finance, Purchasing, Maintenance, Research and Development.

Unit-2: Plant location and plant Lay Out

Need-Selection of exact location, Criteria for selection, plant Lay out-Importance, Types of Plant Lay Out.

Unit-3: Types Of Production Systems

Intermittent and continuous, Job Batch, Mass and flow production systems, Assembly lines balancing, E-Manufacturing- Emerging Manufacturing Technology, Option and Choice.

Unit-4: Production Planning Control

Objectives, - functions Elements of scheduling, - Master Scheduling, priority planning, Facility Loading, Sequencing problem of Scheduling. Production Control-Control Techniques.

Unit-5: Quality Management

Meaning and Importance, Inspection, and Quality Control-Purpose of Quality Control- Cost of Quality- Total Quality Management

Unit-6: Maintenance and Material Management

Objectives, types of maintenance-Primary and Secondary Objective of Material Management, Scope and Objective of Material Management Organisation.

Unit-7: Purchasing and Store Management

Importance of Purchasing-Purchasing Procedure and policies. Store Keeping- Objective, Importance of Store Lay Out.

Unit-8: Inventory Management

Type of inventory Management Systems, Fix Order Quantity periodic Review System, Selective Control of Inventory – ABC Analysis, VED Analysis.

M. B. A. Distance Mode**Semester-II****MANAGEMENT INFORMATION SYSTEM****Course Outcome : To enable student to**

1. describe Management Information System.
2. explain challenge and foundation of management information system.
3. distinguish between models of database management and information systems to pursue competitive strategies.
4. develop and evaluate information system.
5. apply MIS in different functional areas of management for decision making.

Unit-1: To MIS Introduction

Concept of MIS, Role & MIS Uses of MIS.

Unit-2:The Challenge Of Information system

Difference Between Computer Literacy and Information System Literacy. Information needs of different Management Measure type of information System in organisation Decision Support System- Characteristics Components, Measure DSS applications. Group Decision

Support Systems - Elements, Characteristics,& Application Executive Support Systems– Role Development & Benefits of ESS.

Unit-3: Foundations Of Information System

Devices & tools– Hardware, Software & Telecommunication. Managing Data Resources. organising Data in a Traditional File Environment. Modern Database Environment- Logical & physical View of data.

Unit-4: Database Management System

Three Model of date, Hierarchical data model, Network data modal, Relational data modal. Database trends-Distributed, Processing & Distributed database. Object Oriented & Hypermedia database. Management requirement for database system- Data administration, Data planning, Modeling & Modeling Methodology. Challenges in Database Management.

Unit-5: Strategic Role of Information System

Information of strategic resources concept of strategic information system. Contribution of information systems to pursue competitive strategies.

Unit-6: Building Information System

Contemporary approach as a planned organizational change. System development & organizational change. Overview of system development. System analysis System design, Completing system development process. Alternative system building method- System life cycle proto typing, Application of software packed, & use development & outsourcing.

Unit-7: Information System Success And Failure

Major problem areas in information system, causes of information system success and failure, Evolution of success of information systems. Principle causes of information system failure, appropriate strategies to implement the process.

Unit-8: Application Of MIS In Various Functional Areas

Marketing information systems, financial information systems, human resource information systems, production information systems.

APPLICATION OF OPERATION RESEARCH IN MANAGEMENT

Course Outcome : To enable student to

1. describe the concepts of or.
2. solve linear programming problems.
3. give solution over assignment and transportation related problems.
4. elaborate queuing (wating line) and inventory models.
5. apply network analysis for project planning and queuing for inventory situations.

Unit-1: Introduction to OR

Concepts, Phases of OR, Application potential to diverse Problems in business & industry, scope & limitations.

Unit-2: Linear programming (LP)

Concepts, Formulation of models, diverse problems graphical solutions –simple algorithm –use of slack / surplus / artificial variables max. / Min-big. M problems (optimum sensitivity analysis)

Unit-3: Assignment problems (AP)

Concepts, formulation of model-Hungarian –method of solution. /maximisation, /- balanced/unbalanced–prob.

Unit-4: Transportation problems

Concepts, formulation of model- solution procedure for initial feasible solution & optimality check- balance/ unbalance- maxi./ mini.-Case of degeneracy.

Unit-5: Queuing (WATING LINE)- Models

Concepts, types of queuing system characteristics of queuing model, queues in series & parallel birth & Death process. Prob. Based on the results of (M/M/I) model.

Unit-6: Inventory models

Types of inventories, cost involved, deterministic model, Economic Order Quantity (EOQ) & Economic Batch Quantity (EBQ) with finite production rate, EOQ under price break,- determination of safety stock & reorder levels- lead time.

Unit-7: Network analysis- Minimal spanning tree problems

Shortest route problems, Maximal flow in capacitated network- Concept & solution, Algorithm as applied to prob.-project planning & control by use of CPM/PERT Concepts.

Unit-8: Simulation

Concept- Areas of application- Monto Carlo simulation & its application to problems - in queuing Inventory situations.

M. B. A. Distance Mode**Semester-II****APPLICATION OF RESEARCH METHODOLOGY IN MANAGEMENT****Course Outcome : To enable student to**

1. illustrate the objectives, motivation of research and research design.
2. determine measurement and scaling techniques and methods of data collection.
3. test the hypothesis and samples.
4. interpret the collected data, draw the conclusions and write the research report.

5. adapt research in functional areas of management.

Unit-1: Meaning, objectives & Motivation in research

Types of research –Research Approach - Research process, relevance & scope of research in management.

Unit-2: Research Design-

Features of good Design, Types of Research Design, Basic principles of experimental Design. Sampling Design-steps in sample Design Characteristics of a good Sample Design, random samples & random sampling Design.

Unit-3: Measurement & scaling techniques

Errors in measurement test of sound measurement, scaling & Scale construction technique.

Unit-4: Methods of data collection

Primary data – Questionnaire and interviews. Collection of secondary data. Processing and analyzing data – Measures of central tendency, measures of dispersion and skew ness, simple and multiple regression analysis.

Unit-5: Testing of Hypothesis

Procedure for hypothesis testing. Use of statistical techniques for testing of hypothesis.

Unit-6: Testing of Samples

Sampling distribution, sample theory determining size of sample, confidence level.

Unit-7: Interpretation of data

Techniques of Interpretation, report writing, layout of a project report.

Unit-8: Research in general management

Research in functional areas – marketing, finance, HR, production.

* Each Batch of 10 students will be 6 Practical hours per week (4 Batch x 6 Hrs. = 24)

** CIE 50 Marks (30 Marks for Practical Examination and 20 Marks for Journal)

#Each paper has four Hours Practical for a batch of 10 students which covers, Project Report / Journal / Field Survey / Industry Visit / Visits to Banks & Financial Institutions / Lab Work

13. SCHEME OF EXAMINATION:

1. The Entire M. A. [Economics] Course shall have 16 papers [Every semester shall have four papers] each carrying 100 marks. Thus, entire M. A. examination shall be of 1600 total marks.
2. The system of examination would be Semester with choice based credit system (CBCS) and Continuous Internal Evaluation (CIE). The examination shall be conducted at the end of each semester.
3. There shall be Continuous Internal Evaluation (CIE) System within the Semester System. In this System, for every paper, 20 marks are allotted for Internal Assessment and 80 Marks for the Semester Examination of three hours duration that will be held by the end of each term.
4. **Allocation and Division of CIE Marks:** For every paper, CIE component shall carry 20 marks.
 - (i) During every Semester, every student shall have to submit home assignments or present seminar papers or book review or internal examination carrying 20 marks for each paper, on the topics given by the respective course teachers.
 - (ii) For papers having Practical component, students shall have to submit Project Report / Journal / Field Survey / Industry Visit / Visits to Bank & Financial Institutions / Lab Work carrying 20 marks. For these papers, students shall be exempted from home assignments/seminars and written internal test.
 - (iv) For papers having project reports carrying 20 marks, students shall be exempted from home assignments/seminars and written test.
 - (v) CIE will be conducted only once before the commencement of semester examination.
- 5) **CIE - Re-examination:** The CIE re-examination shall be conducted by the Head of the Department
- 6) **Semester-Re-Examination:** In case candidates who fail in any of the papers in any semester examination, they can appear for the re-examination as per the University rules.

14. Standard of Passing

- 1) To pass in each paper 40 marks out of 100 are required.
- 2) Semester Examination: In every paper a candidate should obtain a minimum of 40 % of total marks i.e. 32 marks out of 80 marks.
- 3) CIE – For every CIE component, a candidate should obtain a minimum of 40 % of the total marks, i.e. 4 out of 10 and/or 08 out of total 20 marks.
- 4) A candidate must obtain minimum marks as mentioned above in both the Heads of Passing. In other words, he/she must pass in both the Semester examination as well as

CIE examination separately.

- 5) The details regarding Standard of Passing are given under credit system.

15. Credit System:

EXAMINATION BY CHOICE BASED CREDIT SYSTEM APPLICABLE TO M.A. SEMESTER COURSE FROM JUNE 2017 IN ECONOMICS, DEPARTMENT OF ECONOMICS, SHIVAJI UNIVERSITY, KOLHAPUR.

Introduction: -

Students can earn credit towards their post-graduation by way of credit allotted to the papers or to the course. Credit system permits to follow horizontal mobility towards the graduation courses irrespective of the boundaries of the faculties or within the boundaries of the faculties. Besides it provides a cafeteria approach towards the higher education. But the course curriculum with a permission of horizontal mobility should be structured accordingly. It requires uniformity in the system. An institution has to develop the credit transfer mechanism for worldwide recognition and acceptability. In normal case, an institute has to register for European Credit Transfer System with the proper design of the structure. A scheme has been worked out to put the credit system within the framework of the present education system in the University.

What is Credit?

Credits are a value allocated to course units to describe the student's workload (i.e. Lectures, Practical work, Seminars, private work in the library or at home and examinations or other assessment activities) required to complete them. They reflect the quantity of work each course requires, in relation to the total quantity of work required to complete during a full year of academic study in the Department. Credit thus expresses a relative value.

Students will receive credit through a variety of testing programmes if they have studied a subject independently or have successfully completed department level regular course work. The objective of credit system is to guarantee the academic recognition of studies throughout the world, enabling the students to have access to regular vertical and or horizontal course in any Institutions or the Universities in the world.

Types of Credits:

There shall be two types of credits viz. a) Credit by Examination and b) Credit by Non-Examination.

- a) **Credit by Examination:** - Students can earn credit towards his/her Graduation and Post-graduation upon the successful completion of the tests in the credit by examination programme.
- b) **Credit by Non-examination:-** Students can also earn credit by non-examination by proving his/her proficiency in State, National and International sports' achievements, Social Service (NSS), Military Services (NCC), Colloquium & debate, Cultural programme as shown below during the study period.

Inter-collegiate/PE Exam.	2	2 Years NSS + 1 NSS Camp	2	Any special Camps of more than one week	2

Mechanism of Credit System: -

Credit is a kind of weightage given to the contact hours to teach the prescribed syllabus, which is in a modular form. Normally one credit is allotted to 15 contact hours. It is 30 contact hours in European system. The instructional days as worked out by the UGC are 180 days (30 Weeks). The paper wise instructional days with a norm of 4 contact hours per week per paper will be of 120 days. That is 60 days or 60 contact hours per paper shall be completed during each semester session. By converting these contact hours into credit at the rate of 15 contact hours for each subject, there will be 4 credits allotted to each paper.

Conversion of Marks into Grades:

The marks obtained by a candidate in each paper or practical/CIE (out of 100 or any fractions like 80:20 shall be converted into grades on the basis of the following table.

Grades points	Range of marks obtained out of 100 or in any fractions	
0	from 00	To 39
1	40	44
2	45	49
3	50	54
4	55	59
5	60	64
6	65	69
7	70	74
8	75	79
9	80	84
10	85	89
11	90	94
12	95	100

The maximum credit point shall be 48 credits (i.e. 12 grade points * 4 minimum credits) for each paper.

Grade & Grade Points:

The student's performance of course will be evaluated by assigning a letter grade on a few point scales as given below. The grade points are the numerical equivalent of letter grade assigned to a student in the 12 point's scale,

The grade and grade points and credits shall be calculated as under: -

GRADES	FGPA CREDIT POINTS
O	10 to 12
A+	8 to 9.99
A	6 to 7.99
B+	4 to 5.99
B	2 to 3.99
C+	1 to 1.99
C	0 to 0.99

Evaluation: -

1. The BOS in Economics shall lay down the evaluation system for each course.
2. There shall not be rounding off of SGPA/FGPA.
3. A student who fails in a course shall be required either to repeat that course or to clear another course in lieu thereof irrespective of his/her past performance in the semester if he/she has been awarded a final grade weighted grade of F in that course.
4. A student who secures a grade higher than C in a course may be permitted to improve grade by repeating the course provided that a student willing shall be allowed to do so only if he/she surrenders his/her earlier grade in the course. It will be his/her repeated performance in the course, which will be taken into account to compute the SGPA.
5. Non-examination credit shall be counted in the overall performance or for required minimum credits.
6. The students shall be further graded on a scale ranging from 0 to 12. The grades and grade points as shown below will express the level of good students.

Overall Final Credits	Degree of Good	Students
10 to 12	Higher Distinction Level	Extraordinary
8 to 9.99	Distinction Level	Excellent
6 to 7.99	First Class	Very Good
4 to 5.99	Higher Second Class	Good
2 to 3.99	Second Class	Satisfactory
1 to 1.99	Pass	Fair
0 to 0.99	Fail	Unsatisfactory

16. NATURE OF QUESTION PAPER AND SCHEME OF MARKING :-

There will be four questions in the question paper each carrying 20 marks. All questions shall be compulsory,

MICRO ECONOMIC ANALYSIS **EC-1 (Core/ Compulsory Paper)**

Preamble:

This paper analyses the economic behaviour of individuals, firms and markets. It is mainly concerned with the objective of equipping the students in a rigorous and comprehensive manner with the various aspects of consumer behaviour and demand analysis, production theory and behaviour of costs, the theory of traditional markets and equilibrium of firm in modern non-profit maximizing framework in theory and applications as well. The paper also deals with the micro and macro theories of distribution, welfare economics, and general equilibrium in closed and open systems and analysis of economic behaviour under uncertainty.

UNIT I: Basic Concepts and Demand Analysis (15 Periods)

1.1: Deductive and Inductive Methods of Analysis; Positive and Normative Economics; Characteristics of Equilibrium and Disequilibrium Systems.

1.2: Indifference curve: income, price and substitution effects, Hicks and Slutsky Approach,

1.3: Compensated demand curve and their applications; Revealed preference theory;

1.4: Revision of demand theory by Hicks.

UNIT II: Theory of Production and Costs (15 Periods)

2.1: Least cost combination of inputs; Multi-product firm; Elasticity of substitution; Euler's theorem;

2.2: Cobb-Douglas, CES, VES

2.3: Translog production functions and their properties;

2.4: Traditional and modern approaches to cost curves.

UNIT III: Market Structure: Price and Output Determination (15 Periods)

3.1: Monopolistic competition – general and Chamberlin approaches to equilibrium, equilibrium of the firm and the group

3.2: Oligopoly – Non-collusive: Cournot, Bertrand, Edgeworth, Chamberlin, Kinked demand curve and Stackelberg's solution - Collusive: Cartels and mergers, price leadership and basing point price system models.

3.3: Price and output determination under monopsony

3.4: Price and output determination under bilateral monopoly.

UNIT IV: Alternative Theories of Firm and Distribution (15 Periods)

4.1: Critical evaluation of marginal analysis; Baumol's sales revenue maximization model; Williamson's model of managerial discretion;

- 4.2: Marris model of managerial enterprise; Full cost pricing rule; Bain's limit pricing theory
- 4.3: Neo-classical approach – Marginal productivity theory; Product exhaustion theorem;
- 4.4: Elasticity of technical substitution, technical progress and factor shares.

MONETARY ECONOMICS

EC – 2 (Core/ Compulsory Paper)

PREAMBLE:

This paper analyses the significant role of 'Money' in the economy. It provides essential and thorough knowledge to the economics students relating to the theoretical aspects of money. It covers various approaches towards evolution of money, demand for money, supply of money, and rate of interest, inflation, agencies which creates and supplies money and operates monetary policy. The paper also deals with Keynesian and post-Keynesian economics, which is a most essential part of the monetary economics. Since reforms introduced in financial sector, many new concepts have emerged in this sector. For the students of economics it is essential to understand and analyze these new concepts as well as monetary forces and real forces, their developmental role and limitations in shaping and influencing the monetary and related policies both at the national and international level.

UNIT I: Evolution and flow of Money: (15 Periods)

1.1: Evolution of Money-Money and Near Money - Stock & Flow concept of money

1.2: Functions of Money– Significance of Money in Economy

1.3: Circular Flow of Money; Importance of Circular Flow of Money,

1.4: Velocity of Circulation of Money, Concept of Value of Money.

UNIT II: Money Supply and Money Multiplier: (15 Periods)

2.1: Money Supply- Determinants of Money Supply – Money supply function- Approaches to Money Supply – Money Supply & Liquidity

2.2: H theory of Money Supply – Factors affecting H – Adjusted H--- Is H autonomous policy variable?

2.3: Money Multiplier Process: Determinants –

2.4: Derivation of Money Multiplier, Deposit Multiplier

UNIT III: Demand for Money and Interest Rate: (15 Periods)

3.1: Classical & Neo-classical views on Holding Money – Keynesian theory of Demand for Money– Post Keynesian (Baumol-Tobin approach) - Friedman's Quantity Theory of Money.

3.2: Money & Prices: Fisher's Cash Transaction Approach – Cambridge Cash Balances Approach- Phillips Curve Hypothesis – Rational Expectations theory.

3.3: Theories of Interest Rates: Classical Theory – Loanable Fund Theory –

3.4: Liquidity Preference Theory- Hicks-Hansen Theory

PUBLIC ECONOMICS
(EC – 3 Core / Compulsory Paper)

PREAMBLE

Role and functions of the Government in an economy have been changing with the passage of time. The term 'Public Finance' has traditionally been applied to the package of those policies and operations which involve the use of tax and expenditure measures while budgetary policy is an important part to understand the basic problems of use of resources, distribution of income, etc. There are vast array of fiscal institutions – tax systems, expenditure programmes, budgetary procedures, stabilization instruments, debt issues, levels of government, etc., which raise a spectrum of issues arising from the operations of these institutions. Further, the existence of externalities, concern for adjustment in the distribution of income and wealth, etc. require political processes for their solution in a manner, which combines individual freedom and justice. This course/ paper combines a thorough understanding of fiscal institutions with a careful practical analysis of the issues which underline budgetary policies.

REGIONAL ECONOMICS
(EO – 16 Elective/ Optional Paper)

PREAMBLE

Decentralized planning process involves region specific plan formulation. Concept of region (time and space), location analysis, regional economic policy formulation, imbalances in regional development and region specific problem analysis all assume significance. To enable the student to understand the above aspects, the present paper provides the students the opportunity to learn and understand the basics of regional economics in an inter-disciplinary framework.

UNIT I: Introduction to Regional Economics (15 Periods)

- 1.1:** Definition, Nature and scope.
- 1.2:** The concept of a Region –
- 1.3:** Time and space as additional variables in economic analysis,
- 1.4:** Regional account

UNIT II: Spatial Micro Economics: (15 Periods)

- 2.1:** Spatial micro-economics and location theory, price equilibrium in geographically separated and inter-linked markets,
- 2.2:** Spatial monopolistic competition, shape and size of market areas in space economy,
- 2.3:** Spatial price discrimination, profit maximizing location of the firm – alternative objectives of the firm with regard to location choice –location inter-dependence
- 2.4:** Hotelling formulation and its critique, economies and diseconomies of agglomeration.

UNIT III: Transport Costs and the General Theory of Location: (15 Periods)

- 3.1:** Transport costs in Locational decisions –
- 3.2:** Weber and Isard's theory.
- 3.3:** General equilibrium approach of Losch and Lefebver to location,
- 3.4:** Obstacles to a General Theory.

UNIT IV: Regional economic Policy, Formulation and Regional Development (15 Periods)

- 4.1:** Inter-regional objective function-consistence of national and regional objectives–Approach towards depressed and backward regions Canalization of inter regional migration regional income stabilization –
- 4.2:** Leveling of regional disparities, role of regional financial allocation by the Finance Commission. Development from above versus grassroots level approach.
- 4.3:** Western Maharashtra as a Region: its special structure, industrial, agricultural, demographic aspects, intra-regional variations in Maharashtra, intra-regional variations – in district and taluka,
- 4.4:** Remedial measures, policies and programme for regional development implemented in Maharashtra.

CONTRIBUTION OF NOBEL LAUREATES TO ECONOMICS

PREAMBLE

The paper "Contribution of Nobel Laureates to Economics" aims to acquaint the students of economics with the ideas and works of economists and thinkers who received Nobel Memorial Prize in Economics. The development of ideas by the Nobel Laureates in Economics is breath taking and covers almost all areas of economic analysis, a relatively new branch.

UNIT I:	Theory of Value, General Equilibrium, Game Theory, Welfare	(15 Periods)
1.1:	Kenneth J Arrow, Gerard G. Debreu.	
1.2:	Maurice Allais, Ronald H. Coase, John F. Nash,	
1.3:	John. C. Harsanyi, Reinhard Selten.,	
1.4:	Amartya K. Sen, Angus Deaton.	

UNIT II:	Static and Dynamic Models, Econometrics and Markets	(15 Periods)
	2.1: Ragner Frisch, Jan Tinbergen, Paul A. Samuelson	
	2.2: Lawrence R. Klein, Trygve Haavelmo	
	2.3: George A. Akerlof, A. Michael Spence	
	2.4: Joseph E. Stiglitz	
UNIT III:	Macro, Monetary and Financial Economics	(15 Periods)
	3.1: Milton Friedman, James Tobin, Franco Modigliani	
	3.2: Harry M. Markowitz, William F. Sharpe, Merton H. Miller	
	3.3: Myron S. Scholes, Robert C. Merton,	
	3.4: Paul Krugman, Robert A. Mundell	
UNIT IV:	Economic Development and Economic Growth	(15 Periods)
	4.1: Simon Kuznets, Wassily Leontief	
	4.2: Arthur W. Lewis,	
	4.3: Theodore W. Schultz	
	4.4: Robert M. Solow

MATHEMATICAL ECONOMICS-I

EO – 20 (Elective paper)

PREAMBLE:

Mathematical economics deals with various applications of mathematical tools and techniques in defining and developing economic relationships. This course has been accordingly designed to include various mathematical techniques/methods/models related to the different parts of economic theory like consumer theory, theory of production, pricing etc. Mathematical economics deals with various applications of mathematical tools and techniques in defining and developing economic relationships. The paper covers important aspects of micro economics; macroeconomics and the various modules have been accordingly designed.

Unit 1: Simple calculus and its Applications (15 Periods)

- 1.1.** Function: Meaning, Concept and Types
Derivatives: Meaning, Concept, Rules of differentiation, partial derivatives,
- 1.2.** Rules of partial differentiation. Maxima and Minima in single and multi-variable functions.
- 1.3** Integration: Meaning, Concept, Rules of integration
Matrix: Meaning, Concept, Types, Algebraic Operations, Determinant of
- 1.4.** Matrix, Solution of Simultaneous equations using matrix

Unit 2: Theory of Consumer Behaviour (15 Periods)

- Utility: Cardinal and ordinal utility, Demand function, Ordinal utility
- 2.1.** maximization, Slutsky equation, income, substitution and price effects
- 2.2.** Elasticity: Meaning, Concept and its applications
Consumer's surplus Producer's Surplus: Meaning, Concept and its
- 2.3.** applications,
- 2.4.** Additive utility function, indirect utility function, linear expenditure system.

Unit 3: Theory of Production (15 Periods)

- 3.1.** Production function: Short Run and Long Run, Homogeneous and Non-homogeneous
- 3.2.** Cobb-Douglas production function, CES production function and its properties
- 3.3.** Producer's equilibrium: Constrained optimization of a producer
- 3.4.** Multi-product firm and Production possibility curve, Empirical uses of production function analysis.

Unit	4: Theory of Cost and Market Structure	(15 Periods)
4.1.	Cost function, simple derivation of short run cost function, modern theory of cost, relation between AC and MC in short period.	
4.2.	Market Structure- Types of various markets	
4.3.	Price and output determination in perfect competition, monopoly, monopolistic competition, duopoly, oligopoly	
4.4.	Market Equilibrium- Single and two-commodity market model, multi-market equilibrium, general equilibrium

**CENTRE FOR DISTANCE EDUCATION
SHIVAJI UNIVERSITY, KOLHAPUR
Master of Arts (English)**

VISION : Developing human resource required for the Knowledge Society.

MISSION: Disseminate and facilitate Higher Education to marginalized and deprived masses.

PROGRAMME OBJECTIVE

1. To introduce core language courses to provide an introduction to the basic concepts of linguistic theory.
2. To introduce elective courses to acquaint the students with Global developments in Literature, Language and Theory.
3. To introduce practical components to enhance students' competence in English, Soft Skills, Computer and Research Skills. This will help students prepare for language proficiency tests like GRE-TOEFL, IELTS etc.
4. To introduce interdisciplinary papers to make students aware of the developments in other branches of knowledge like Political Science, Philosophy, Psychology, Theatre and Film Studies, Culture Studies, Subaltern Studies, Gender Studies, etc.

PROGRAMME OUTCOMES

1. The students will develop acumen to appreciate literary works and arts.
2. The students will become sensitive and sensible human beings.
3. The students will develop human outlook.
4. The students will be responsible citizen in the global scenario in terms of English language.

PROGRAMME STRUCTURE

M.A. English Programme is two years Programme with having 4 semesters. M. A. CBCS Program with total 64 Credits of which each semester has total 16 credits. Each course has 4 credits.

Each semester has 2 Core Courses and 2 Elective/Optional Courses. Students need to select 2 Elective/Optional Courses from 3 Elective/Optional Courses.

Examination will conduct on end of each semester. Each Course have total 100 marks of which 80 marks for theory exam and 20 marks for assignments/term work. Student should need 40 marks out of 100 marks for passing. In which, he/she need minimum 32 marks from theory exam and minimum 8 marks from assignments/term work.

Eligibility: A graduate from any Recognized University shall be eligible to get admission to M.A. English Programme if complete one of the following criteria.

1. A graduate having English as special subject for B.A. Part III
2. A graduate having English as optional subject in B.A. Part I & II
3. A graduate who not completed any of above 1 and 2 criteria shall appear for 100 marks exam for change in faculty. Candidate need minimum 45 marks out of 100 marks to qualify change in faculty exam.

4. A postgraduates from M.A. Language shall eligible to take admission for M.A. English.

पाठ्यक्रम

आज हिंदी विश्व भाषा के पद पर विराजित है। हिंदी के विश्वव्यापी स्वरूप को ध्यान में लेते हुए स्नातकोत्तर छात्रों को शिक्षित, आत्मनिर्भर तथा रोजगारोन्मुख करना आवश्यक है। सूचना क्रांति के जमाने में हिंदी अंतरताना (इंटरनेट) पर अपना अधिकार जमा चुकी है। हिंदी अत्यंत संपन्न भाषा है। हिंदी का साहित्य समृद्ध है। हिंदी ने साहित्य और समाज के बीच के रिश्ते की अहमियत बनाए रखी है। इन सारी बातों पर गंभीरता से विचार कर एम.ए. का स्नातकोत्तर पाठ्यक्रम प्रस्तुत है।

आज भारत के बाहर लगभग 154 देशों में हिंदी पढ़ाई जाती है। प्रवासी भारतीयों के साथ विदेशों के स्थानीय छात्र भी हिंदी का अध्ययन करते हैं। हमारे छात्रों को विदेशों में भी नौकरी की संभावनाएँ हैं। आज अनेक सॉफ्टवेयर्स तैयार किए गए हैं। एम.ए. हिंदी के छात्र हिंदी भाषा तथा साहित्य के सभी पारंपरिक स्वरूप तथा उनकी विशेषताओं एवं साहित्य-कृतियों के साथ-साथ उसके अधुनातन स्वरूप, आयामों से परिचित होंगे और बेहतर भविष्य की सभी संभावनाओं को लेकर चलेंगे, इस हेतु से यह प्रस्तुत किया गया है। हिंदी के वैश्विक स्थान और उसके प्रचार-प्रसारादि के कारण छात्रों के लिए रोजगार के अनेक अवसर उपलब्ध होंगे।

छात्रों को प्राचीन काल से लेकर आज तक के हिंदी साहित्य से परिचित कराना, उसकी उपयोगिता तथा प्रासंगिकता की जानकारी देना, तत्कालीन परिवेश, प्रमुख कवि तथा साहित्यकारों की रचनाओं की जानकारी देना उद्देश्य रहा है। हिंदी भाषा, लगभग ग्यारह सौ वर्षों के हिंदी साहित्य का इतिहास, भाषा विज्ञान, हिंदी भाषा की समग्र जानकारी करा देना, हिंदी कथा और कथेतर साहित्य की विधाओं का परिचय तथा उसके अध्ययन के लिए समीक्षात्मक दृष्टिकोण विकसित कराना, साथ ही हिंदी के विविध व्यावहारिक स्वरूप तथा प्रयोग का ज्ञान कराना उद्देश्य रहा है। मनुष्य जीवन तथा ज्ञान-विज्ञान के अनेक क्षेत्रों - भाषा प्रौद्योगिकी और हिंदी के अंतःसंबंधों की जानकारी कराना भी उद्देश्य रहा है। संगणक क्षेत्र, बैंकिंग, वैद्यक आदि अनेक क्षेत्रों में हिंदी का अद्वितीय स्थान है। आज विश्व साहित्य की संकल्पना इतनी विकसित हुई है कि विश्व साहित्य संकल्पना से 'अनुवाद' शब्द भी गहराई से जुड़ता गया। इन सभी बातों को केंद्र में रखकर छात्रोपयोगी एम.ए. पाठ्यक्रम प्रस्तुत है।

पाठ्यक्रम शीर्षक : एम.ए. हिंदी

BACHELOR OF COMMERCE PART- I

Course: CC-A1/A2: Micro Economics Paper-I (MICEC-1) / Paper-II (MEP-II)

Course Outcomes:

To enable the student to-

1. Relate the concepts of micro economics with consumer behavior.
2. Illustrate the supply side of the market through the production and the cost behavior of firm.
3. Able to apply tools of consumer behavior and firm theory to business situation.
4. Motive regarding the changing picture and needs of economy.
5. Design tools of consumer behavior and firm theory to business situation.

Course Syllabus

MICRO ECONOMICS Paper I

Unit I: Demand and Consumer behavior

Concept of demand. Indifference Curve Analysis – Meaning, indifference curve map, Characteristics, Marginal rate of substitution (MRS) - Consumer's equilibrium-Income effect, Substitution effect, Price effect. Application of indifference curve. Engle curve.

Unit II: Demand forecasting:

Meaning- Importance of demand forecasting in Business decision making. Methods of Demand Forecasting – Market Survey, Time series and Graphical method.

Unit III: Production function-

Concept of production function - fixed and variable inputs. – Law of variable proportions and Law of Returns to scale- Internal and External economies of scale. Isoquants- Concept, Marginal Rate of Technical Substitution (MRTS), Economic region of production, optimal combination of resources, Expansion path.

Unit IV: Cost of production and Revenue:

Cost of production – Money and Real cost, Private and Social cost, Opportunity cost. Short and long run cost curves. Modern approach of cost curves. Revenue – Total, Average and Marginal revenue - Revenue curves in perfect competition and imperfect competition.

MICRO ECONOMICS Paper II

Unit I: Perfect competition: Meaning -Equilibrium of firm in short run and long run. Equilibrium of industry in short run and long run. Measuring producer's surplus under perfect competition.

Unit II: Monopoly: Meaning. Price determination under monopoly. Concept and types of price discrimination. Measurement of monopoly power.

Unit III : Monopolistic competition and Oligopoly

Monopolistic competition – Characteristics- Equilibrium of firm in short run and long run. Oligopoly market- Characteristics. Price determination in Oligopoly market - Price war, Price leadership and kinky demand curve.

Unit IV: Factor Pricing - Rent- Meaning - Ricardo's & Modern theory of rent Wage- Meaning -Money and Real wage. Wage differentials. Interest –Meaning. Liquidity preference theory of interest Profit – Meaning. Gross and Net profit – Risks –Bearing and Uncertainty theories of profit.

Course: CC-A3/A4: Management Principles & Application Paper- I (MPAP-1) / Paper-II (MPAP-II)

Communication-Meaning, Importance /Process of Communication, Types of

Communication, Barriers to Communication. Overcoming Barriers to Communication

Management Principles & Application -Paper-II**Unit 1: Motivation -**

Motivation: Concept, Importance, extrinsic and intrinsic motivation;

Theories of Motivation - Maslow's Need-Hierarchy Theory; Herzberg's Two factor theory,

Douglas McGregor's Theory X and Theory Y and William Ouchi's theory Z.

Unit 2: Leadership

Leadership - Concept, Importance, Theories of Leadership -Likert's scale theory,

Blake and Mouten's Managerial Grid theory, House's Path Goal theory.

Leadership Styles- Autocratic, Democratic and Free rein. Leadership styles of Shivaji Maharaj, Mahatma Gandhi, Dr. Babasaheb Ambedkar.

Unit 3:Co-ordination and Control:

Co-ordination – Concept – Need – Techniques of establishing co-ordination.

Control- Concept, Process, Limitations .Principles of Effective Control. Techniques of Control –Traditional Modern.

Unit 4: Emerging issues in Management: Lectures: 10

Social and Ethical Issues in Management - Corporate Social Responsibility-

Meaning and Importance. Concept & Social Responsibility – Corporate Social

Responsibility – Meaning – Importance. Green Management – Management &

Change – Concept, Need for Change –Lewins Kurtz's three Stages& Plane

Change. Resistance to Change – Overcoming Resistance to Change.

Course: CC-A5/A6: Financial Accounting Paper-1 (FACC-1) / Paper-II (FACC-II)

Course Outcomes:

To enable the student to

1. Illustrate ethical issues related to the accounting profession.
2. Apply basic accounting knowledge as applicable to business.
3. Analyze financial statements in accordance with Generally Accepted Accounting Principles.
4. Justify the need of IFRS in 21st century.
5. Develop critical thinking skills to analyze financial data as well as the effects of differing financial accounting methods on the financial statements.

Course Syllabus

Financial Accounting Paper I

Unit I: Basic Accounting Concepts and Conventions, Accounting Process.

Accounting Standards-Need & Procedure, Concept of IFRS

Unit II: Amalgamation of Partnership Firms

Unit III: Consignment Accounts-Important Terms and Accounting in the books of Consignor and Consignee.

Unit IV: Accounts of Professionals –preparation of Receipts and Expenditure

Account and Balance sheet of Medical Practitioners and Professional Accountants.

Financial Accounting Paper- II

Unit I: Single Entry System - Conversion Method only

Unit II: Conversion of Partnership Firm into a Limited Company-Accounting in the books of partnership Firm only.

Unit III: Branch Accounts - Dependent Branch- preparation of Branch Account, Branch Trading and Profit and Loss Account and Stock and Debtors Method

Unit IV: Computerized Accounting System: Introduction to Computerized Accounting. Accounting software's 'Tally'-preparation of Vouchers, Feeding of Data and Generating of various Reports

Course: AECC-C1/C2: Business Communication Paper-1 (BUSCOMM-1)/ Paper-II (BUCOM-II)

Course Outcomes:

To enable the student to-

1. To acquaint students with communication skills.
2. To inculcate human values among the students through poems and prose.
3. To improve the language and business competence of the students.
4. To apply skills about different techniques used for business communication in 21st century.
5. To built human values among the students through poems and prose.

Course Syllabus

Business Communication Paper-I

Module - I

- A) Developing Vocabulary
- B) On Smiles – A. G. Gardiner

Unit: II –a) Pricing: Significance. Factors affecting price of a product. Pricing policies and Strategies.

b) Nature and Importance of **promotion**; promotion tools: advertising, personal selling, public relation & sales promotion –concept and their distinctive characteristics; Promotion mix and factors affecting promotion mix decisions.

Unit: III –Distribution: Channels of distribution – meaning and importance; Types of distribution channels; Wholesaling and Retailing; Factors affecting choice of distribution channel; Physical Distribution. Direct marketing and Services marketing- concept and characteristics.

Unit : IV – Retailing ; Types of retailing – store -based and non-store based retailing, chain stores, specialty stores, supermarkets, retail vending machines, mail order houses, retail cooperatives; Management of retailing operations; an overview; Retailing in India : changing Scenario.

Course: GEC-B3/B4: Insurance Paper-I (INS-I)/ Paper-II (INS-II)

Course Outcomes:

To enable the student to-

1. Explain the fundamental principles of Insurance.
2. Identify procedural part and documentation in Life Insurance business and General Insurance business.
3. Discover the skills required to become a life Insurance Agent.
4. Evaluate the fundamentals, need and procedure of General Insurance.
5. Discuss the further development of insurance sector and its diversification.

Course Syllabus

INSURANCE Paper- I

Unit-1: Introduction to Insurance - Definition, characteristics and need of insurance. Economic and commercial significance of insurance. Insurance as a social security tool. Types of insurance in brief. Principles of insurance. Insurance contract and wagering contract.

Unit-2: Life Insurance – Meaning and Nature of life insurance. Life insurance products, -whole life, endowment, term plans, pension and annuity plans , unit linked Insurance plans.

Unit-3: Life Insurance Policy – Meaning, Procedure of taking life insurance policy-policy conditions –settlement of claims.

Unit-4: Life Insurance Business in India – Growth of life insurance business after privatization. Evaluation of performance of LIC of India and private companies. Insurance Regulatory and Development Authority Act, 1999- structure.organizational set up and functions.

INSURANCE Paper- II

Unit - 4: General Insurance Business in India: Growth of general insurance business after privatization . Evaluation of performance of public and private companies- Foreign Direct Investment (FDI) in insurance business- merits and demerits, current scenario - Bancassurance .

Course: GEC-B1 / B2: Business Mathematics Paper-I (BMATHE-I) / Paper-II (BMATHE-II)

Course Outcomes:

To enable the student to-

1. Define business mathematics concepts that are encountered in the real world.
2. Understand and be able to communicate the underlying business concepts and mathematics involved to help another person gain insight into the situation.
3. Apply of basic Calculus in Business on the basis of mathematics.
4. Explain the fundamental principles arising from the mathematical ideas associated to business applications.
5. Discuss second and third order, square matrix, Singular and non – singular matrix.

Course Syllabus

Business Mathematics Paper-I

Unit-I Progression

- 1.1 Introduction.
- 1.2 Definition: Sequence, Arithmetic Progression (A.P.).
- 1.3 General term (nth term) of an A.P., Sum of the first ' n ' terms of an A. P. and simple examples.
- 1.3.1 Examples based on the application of Arithmetic Progression to Business.
- 1.4 Definition: Geometric Progression (G.P.).
- 1.5 General term (nth term) of an G.P., Sum of the first ' n ' terms of an G. P. and simple examples.
- 1.5.1 Examples based on the application of Geometric Progression to Business.

Unit-II Matrices and Determinants

- 2.1 Introduction.
- 2.2 Definition of Matrix
- 2.3 Types of matrices: Rectangular matrix, Row matrix, Column matrix, Square matrix, Diagonal matrix, Scalar matrix, Unit matrix (Identity matrix), Upper triangular matrix, Lower triangular matrix, Null matrix (Zero matrixes).
- 2.4 Algebra of matrices: Equality of matrices, Addition and Subtraction of matrices. Scalar multiplication of a matrix, Multiplication of matrices Transpose of a matrix and examples.
- 2.5 Minor, cofactor, Ad joint, Inverse of a square matrix. Finding inverse of a matrix by using ad joint method.
- 2.6 Determinants of second and third order. Determinant of a square matrix, Singular and non –singular matrix. Properties of determinants (without proof), Examples.
- 2.6.1 Cramer's rule, Solution of system of linear equations by Cramer's rule.

Unit-III Ratio, Proportion, Percentage and Interest

- 3.1 Introduction.
- 3.2 Ratio and Proportion.
- 3.2.1 Simple and compound proportion.
- 3.2.2 Simple examples on ratio and proportion.
- 3.3 Percentage, simple examples.
- 3.4 Interest: Simple Interest, Compound Interest
- 3.4.1 Simple examples based on simple and compound interest.
- 3.5 Annuity: Types of annuity, Present value of an annuity, Future value of an annuity. Examples

Unit- IV Linear Programming Problems (L. P. P.)

- 4.1 Introduction.
- 4.2 Definition: Linear Programming, Objective function, Decision variables, Constraints.
- 4.3 Formulation of L.P.P (Two variables only)
- 4.4 Definition: Solution to L.P.P., Feasible solution, optimal solution.
- 4.5 Solution of L.P.P. by graphical method. (Cases having no solution, multiple solutions, unbounded solution) Examples.

Business Mathematics Paper-II

Unit- I Functions Of Real Variables

- 1.1 Introduction.
- 1.2 Linear, Quadratic, Exponential ($y = ax$), Inverse functions and their graphs. Illustrative examples.
- 1.3 Limit of Function.
- 1.3.1 Definition of Limit, Standard limits.
- 1.3.2 Algebra of limits: If $f(x)$ and $g(x)$ are two Functions of x and k is any scalar, then
 - (i) $[f(x) \pm g(x)]_{x \rightarrow a} \lim = f(x)_{x \rightarrow a} \lim \pm g(x)_{x \rightarrow a} \lim$.
 - ii) $k f(x)_{x \rightarrow a} \lim = k f(x)_{x \rightarrow a} \lim$.
- 1.4 Simple examples.

Unit-II Differentiation

2.1 Definition: Derivative of a function.

2.2 Derivative of some standard functions from first 6 principle ($y = x^n$, $y = e^x$, $y = ax$, $y = c$, where c is a constant function.

2.3 Rules of Differentiation: Sum, Difference, Product and Quotient of two functions.

2.3.1 Simple examples.

2.4 Second order derivative and examples.

Unit-III Integration

3.1 Integration - An anti derivative process.

3.2 Standard Integrals.

3.3 Algebra of integrals: If $f(x)$ and $g(x)$ are two integrable functions and k is any constant, then

$$(i) \int k \cdot f(x) dx = k \cdot \int f(x) dx .$$

$$(ii) \int [f(x) \pm g(x)] dx = \int f(x) dx \pm \int g(x) dx .$$

3.3 Methods of integration: (i) Substitution method

(ii) Integration by parts.

3.3.1 Examples.

3.4 Definite integrals and their properties, examples.

Unit- IV Application of Calculus in Business

4.1 Maxima and minima, Case of one variable involving second order derivative.

4.2 Cost function, Average cost, Marginal cost, Revenue function, Profit function , Elasticity of demand.

4.3 Consumer's surplus and producer's surplus.

4.4 Examples based on (4.1), (4.2) and (4.3)

Course: GEC-B5/ B6: Geography Paper-I (GEO-I) / Paper-II (GEO-II)

Course Outcomes:

To enable the student to

1. Define Commercial Geography, Conservation of Resources & sustainable economic development.
2. Classify economic activities regarding Indian Economy and Globalization.
3. Identify the bases of commercial and marketing activities related to the earth.
4. Analyze Conservation of Resources & sustainable economic development.
5. Discuss nature and approaches to the study of agricultural marketing.

Course Syllabus

GEOGRAPHY- Paper I

Unit. 1. Introduction to Commercial Geography.

- 1.1 Meaning of Commercial Geography
- 1.2 Nature of Commercial Geography
- 1.3 Scope of Commercial Geography
- 1.4 Significance of Commercial Geography.

Unit.2. Resources -

- 2.1 Meaning & importance of Resources
- 2.2 Classification of Resources
- 2.3 Conservation of Resources & sustainable economic development.
- 2.4 Major Bio-Resources & their international trade.

Unit.3. Economic Activities.

- 3.1 Classification of Economic activities.
- 3.2 Factors affecting Economic activities.
- 3.3 Economic activities & National economy.

Unit.4. Globalization 15 01

- 4.1 Meaning of Globalization
- 4.2 Impact of Globalization.
- 4.3 Globalization & Indian Economy.
- 4.4 Trade Organizations – WTO, OPEC, EEC.

GEOGRAPHY- Paper II**Unit.1 .Introduction to Marketing Geography**

- 1.1 Marketing Geography -Concept & Meaning.
- 1.2 Marketing Geography - Nature
- 1.3 Marketing Geography - Scope.
- 1.4 Marketing Geography- Significance
- 1.5 Marketing Geography- Primary Components.

Unit.2. Market System

- 2.1 Definition of Market
- 2.2 Structure & Significance of Markets.
- 2.3 Geographical factors affecting Market system.
- 2.4 Classification of Markets.

Unit.3. Agricultural Marketing.

- 3.1 Definition Meaning of and Significance of Agricultural Marketing.
- 3.2 Nature and approaches to the study of Agricultural Marketing.
- 3.3 Process and system of Agricultural Marketing.
- 3.4 Functions and channels of Agricultural Marketing.

Preface

We are proud to present this book entitled "Accounting and Finance for Managers". Nowadays, accounting has become the language of the business. Every business organisation when speaks about its performance, takes the help of its accounts. Similarly finance has also become the lifeblood of any business activity. It facilitates smooth running of the business. Advancements in the world of accounting and finance are taking place at a rapid pace. In order to sustain in the real-world practice, even a layman needs to acquaint himself with accounting and finance.

The present book facilitates understanding of basic accounting principles, concepts and conventions. It also helps to understand the cost accounting principles. Further the important aspect of decision making through accounting and finance has also been dealt with in the book with the help of analysis of financial statements and marginal costing. This will particularly be helpful to the future managers for developing their theoretical knowledge as well as for enhancing their analytical skills required for decision making in tomorrow's competitive world.

We are thankful to the authors who have tried their best to bring forward the latest information. An attempt has also been made to explain the terms in a simplified manner. More or less, the contents have been exhaustive as per the syllabus. We have tried to maintain the unanimity and sequence in all the units and we have pleasure to record the cooperation given by the authors in this respect.

We hope that this book contributes in the understanding of accounting & finance in the life 'would-be-managers' and imparts a sense of excitement. We also welcome any suggestions, comments on the book from students/teachers.

Preface

It gives us immense pleasure to present this book on 'Business Law' to the students of Business Management. Legal education has become very essential in today's world. This need of knowledge of law becomes even more significant to business managers as there exists an entire gamut of corporate laws that control, regulate, promote or facilitate business activities. Every business organization has to act within the legal framework that is laid down in the country for the purpose of carrying out business activity. Hence, every business manager must have the knowledge of the laws in that regard. Although, a manager is not expected to know each and every branch of law, he/she is expected to possess the knowledge of atleast the basic rules and regulations by which the business organization is governed.

Thus, the main purpose of this book is to provide the knowledge of the fundamental principles of Business Law to business managers. An attempt has been made to present the contents in a simple, but comprehensive manner. Legal jargon has been avoided wherever possible so that students do not find it difficult to understand the meaning of the topics.

The book begins with an Introductory topic which deals with the meaning of law and its object and the necessity of the knowledge of law. Thereafter, the meaning of the term 'Business Law' is given and the topic ends with the legal system in India and the core commercial laws of India.

Units 2-8 incorporate seven (7) important legislations that form part of the core commercial laws of India and are very essential from a business managers point of view. Every unit is provided with keywords to assist the students and also carries exercises. A list of books recommended for further reading will also be found at the end of every unit. Field work given in the unit should help students to gain some practical knowledge.

The book thus makes a sincere attempt to equip students of Business Management (who are the future managers), with the necessary fundamental knowledge of Business Law.

Preface

Large number of students appears for M.B.A. examinations externally every year. In view of this, Shivaji University has introduced the Distance Education Mode for external students from the year 2008-2009, and entrust the task to us to prepare the Self Instructional Material (SIM) for aspirants. An objective of the SIM is to provide students the material on the subject from which they can prepare for examination on their own without the help of a tutor. To day we are extremely happy to present the book on "Mathematics and Statistics for Management" for M.B.A. students as a SIM prepared by well devoted Experts in the subject. We hope that the exposition of the material in the book will meet the needs of all aspirants.

Many times a question is posed before a Mathematician that "What is the use of Mathematics"? I believe that the material of this book is the answer to this question. It is hoped that after going through this book the students will learn how to use their Mathematical knowledge in solving the problems in business and Economics to maximize profit. The book consists of eight units. Unit one contains the complete discussion on functions that appear in Mathematics and Economics. Chapter two deals with the concept of limits and derivatives. As an application of derivative to business and Economics, we apply these concepts to maximize the profits and minimize the losses. Unit 3 and unit 4 deal with determinants and matrices. These are used to solve system of equations appearing in optimality of resource generation. The central idea of mathematical finance is "Money grows with time". This concept of time value of money is dealt in Unit 5. Computational techniques of measures of central tendency such as mean, mode, median, range, quartile deviation, mean deviation, standard deviation etc., are the subject matter of Unit 6. The last two Units 7 and 8 respectively deal with the concepts like Correlation and Regression. Innumerable examples and exercise at the end of each unit are meant for enhancing the enjoyment of mathematics.

We owe a deep sense of gratitude to the Vice-Chancellor Dr. M. M. Salunkhe who has given impetus to go ahead with ambitious projects like the present one. Dr. L. N. Katkar, Dr. Sarita Thakar of Department of Mathematics, Shri. A. L. Jadhav, retired Lecturer from Vivekanand College, Kolhapur and Professor D. T. Shirke Department of Statistics, Shivaji University have to be profusely thanked for the ovation they have poured to prepare the SIM on Mathematics and Statistics for Management. We also thank Director of Centre for Distance Education Prof. Cima Yeole and Deputy Director Shri. Sanjay Ratnaparakhi, Shivaji University, for their help and keen interest in completion of the SIM. Thanks are also due to Dr. Dinde H. T. for computerizing the manuscript neatly and correctly.

Preface

All the organizations now a days look for such employees, who are having emotional intelligence. The modern organizations require motivated work force to attain the goals of high productivity and high profit. It is very easy to control the physical resources like money, material and machines. But it is very difficult to control the human beings. Because human behaviour is very complex in nature. We cannot predict why the individual behaves in a particular way in a particular time. Organizational behaviour is the subject which makes indepth analysis of human behaviour at work.

Organizational Behaviour is divided into Eight units. Unit 1 introduces the subject. Unit 2 describes about individual behaviour, i.e. the personality, perception, attitude and value affecting human behaviour. Unit 3 is related with learning, theories of learning, factors affecting learning, and Behaviour Modification. Unit 4 describes about motivation, theories of motivation, the role of money and non financial incentives in the motivation. Unit 5 discuss about stress, its causes and consequences on individuals. Unit 6 is related with Interpersonal Behaviour, where group dynamics, theories of group formation, conflict and levels of conflict had been discussed in detail. Unit 7 describes about leadership, theories of leadership, power and authority. Unit 8 discuss the macro perspective of organizational behaviour, organizational change and organizational development.

The layout and format of the subject matter is giving stress on self learning. The keywords and summary is provided at the end of every unit.

We sincerely acknowledge those authors of books and articles from which we could get valuable inputs to develop the subject matter of this book. We also welcome the suggestions towards the improvement in the text.

Preface

It gives me a great pleasure to introduce this book on 'Business Communication' as self-instructional material for M.B.A. (Ex.) students of Centre for Distance Education, Shivaji University, Kolhapur.

The book contains eight units which cover some important aspects of managerial communication in business situations. The first unit deals with meaning, process, significance, objectives, forms and barriers to communication. The second and third units cover the written media of business communication like business letters and applications. The fourth unit deals with business reports. The fifth unit covers the topic of oral communication. The sixth unit deals with group discussion and interviews. The seventh unit deals with the non-verbal media of communication like gestures, postures, body language, facial expression and dress codes. The last unit deals with the application of electronic media like telecommunications, teleconferencing, FAX, e-mail etc.

I am grateful to all those who wrote different units of this books. I thankfully acknowledge the co-operation, guidance and assistance of Centre for Distance Education, Shivaji University, and the University Press.

Suggestions for improvement may kindly be sent to the Director, Centre for Distance Education with due reference to the subject of the book.

Preface

This book is devoted to the subject of Information Technology for Management and is intended for the MBA learner as well as for those who need to learn about information technology. The book follows the syllabus of information technology for management for MBA Part-I Semester-I.

I have not followed the individual units in order in which they appear in the syllabus for the sake of continuity and presentation. The student should rest assured, however, that all of the units in the syllabus have been completely covered,

This book divided into eight units. In Unit 1 Introduction to information technology, its concept, components and their applications in management, hardware and software and peripherals industry in India is explained, Unit 2 introduces computer as a tool of Information Technology, it includes hardware, software, input-output devices, number systems, codes, computer languages and compilation process. Unit 3 introduces system programs such as assembler, compiler, linker and loader. Unit 4 deals with operating system, its architecture, and functions of Windows, DOS, Linux and Unix. Unit 5 gives an insight of windows and components of MS-Office. Unit 6 covers complete networking and topology. Unit 7 explains concept of Internet and its details, Unit 8 deals with the concept of E-Commerce, its types and application and technology used for it.

This book maintains a simple and easy-to-understand style of narration and every effort have been made to reader the presentation interesting. The entire field of the subject dealt with has been covered. This will enable the readers to use the book effectively for self-study.

We would like to express our appreciation to Shivaji University, Kolhapur, authority for their encouragement and valuable guidance in bringing and this text.

We are grateful to Mrs. M. B. Sawant, Mrs. A. S. Kadam, and Mrs. M. M. Jagtap for their efforts and cooperation to accomplish this task efficiently and effectively.

Preface

It gives us great pleasure in presenting this book on Managerial Economics, as Self Instructional Material for M.B.A. (Executive) and M.B.A. Distance Mode students of Centre for Distance Education, Shivaji University, Kolhapur.

The book contains eight units which deal with important aspects of Economics which are of more direct and applied use for business managers and entrepreneurs. The units deal with introduction to managerial economics, demand analysis, production and cost, pricing in different market structures, various pricing practices, decision analysis, profit management and macro-economic analysis, relevant for business decision making and planning. Wherever necessary illustrations, diagrams, charts, etc. are used. Attempt has been made to make the writing simple with conceptual clarity and scientific rigour.

We are grateful to all those who worked on different units. Cooperation and guidance and assistance from Centre for Distance Education and University Press is thankfully acknowledged.

Suggestions for improvement may kindly be sent to Director, Centre for Distance Education with due reference to the subject of the book.

Preface

Principles of Management is one of the basic Courses both at undergraduate and post-graduate levels of management Studies in all Universities/Institutions in India and abroad. Principles of Management deals with the fundamental concepts, principles and theories of Management. This course aims at providing adequate Knowledge of theory and practice of Management in general. Anyone who intends to enter in to the vast field of Management Studies must have proper and adequate understanding of this course to proceed further in advanced courses and specializations in Management Studies.

The present book consists of eight units and covers topics right from Introduction to Management to International Management. The learners are exposed to almost all Concepts, theories and principles of management as a Science. The whole process of management is discussed in the book by devoting separate unit for each of the main functions of management. An attempt is also made to take a critical review of how the management thought has developed over a period of time. It is interesting to understand the historical development of management as a science. The major Contributions towards management thought by various thinkers, the classical, neo-classical and modern schools have been elaborated. Another important aspect which needs to be understood is the study of Business Environment. Business Environment is constantly changing and the enterprises have to keep a proper pace with these changes. The book devoteds a separate unit on study of Business Environment.

Today we are in the age of Globalization and the management has acquired its international dimension. The last unit of the present book deals with International Management. The concepts like MNCS, multicultural management, transnational management have properly brought under the preview of this unit.

As to the layout and format of the subject matter the self-learning style is adopted. The internal check list to understand the progress of learners are provided. The keywords and Summary is provided at the end of every unit. Wherever necessary, field study exercises, case studies and questions for self study are provided.

We sincerely acknowledged those authors of books and articles from which we could get valuable inputs to develop the subject matter of this book. We also welcome the suggestive towards the improvement in the text.

Preface

Large numbers of students appear for M.B.A. Examination externally every year. In view of this, Shivaji University has introduced the Distance Education Mode for external students from the year 2007-08, and entrusted the task to us to prepare the Self Instructional Material (SIM) for aspirants. An objective of the SIM is to provide students the material on the subject from which they can prepare for examination on their own without the help of a tutor. Today we are extremely happy to present the book on Application of Operation Research in Management for M.B.A. students as a SIM prepared by the well devoted experts in the subject. We hope that the exposition of the material in the book will meet the needs of all aspirants.

This book introduces the students to some of the important topics in operation research. The first two units deal with the most important topic i.e. introduction to O.R. and linear programming, which are concerned with the determination of a minimum or maximum of functions of several variables, which are required to satisfy the number of constraints (such solutions are required in diverse fields like engineering, management science, computer science, economics etc.) In units 3 and 4 we consider two well known special linear programming models, namely assignment and transporation models. These models are not representative of a particular situation but may arise in many physical situations that have nothing to do with transportation and assignment. In units 5 to 8 we consider important topics like Queuing and inventory theory, network analysis and simulation.

The study of queues is mainly applied in the field of business, industries, engineering and because of inventory models it is possible for a businessman to get maximum profit by carrying stock of goods properly. Simulation is a technique useful in solving a business problem where many values of the variables are not known, or partly known in advance and there is no easy way to find these values. Network scheduling is a technique used for planning and scheduling large projects in the various

fields.

We owe a deep sense of gratitude to the Vice-Chancellor Dr. M. M. Salunkhe who has given impetus to go ahead with ambitious projects like the present one Dr. R. N. Rattihalli, Dr. H. T. Dinde have to be profusely thanked for the ovation they have poured to prepare the SIM for M.B.A.

We also thank Prof. M. S. Chaudhary, Head, Department of Mathematics, Shivaji University, Director, Centre for Distance Education, Mrs. Cima Yeole and Deputy Director Shri. Sanjay Ratnaparakhi for their help and keen interest in completion of the SIM. We thank all the unit writers and also officers and employees of Centre for Distance Education and University Press for their enthusiastic co-operation.

Preface

Research Methodology is one of the important courses in post graduate level in Management Studies. M. B. A. being very popular course of management studies can hardly ignore its inclusion in the curriculum. Our university while launching M. B. A. programme on distance mode has taken responsibility to provide Self Instructional Material for each of the Courses. The present volume aims at providing such study material for the course on "Research Methodology".

Research methods in management do not fundamentally differ from research methods for social sciences. However the subject matter and the problems in management studies differ from those of other social sciences. To a major extent though not entirely, the research in management is applied research. The field of management studies is becoming broad so as to include the new and new areas like quantitative techniques, IT techniques, social responsibility, business ethics, corporate values and so forth. This has necessitated the use of new and more sophisticated tools and techniques in management research.

This volume is expected to meet the needs of students in the study of research methodology for management. The syllabus of the said course attempted to be covered fully. There are eight units which deal with different aspects. Almost all the topics research methodology for management are covered. As like other volumes of SIM, an attempt is made to present the matter in such a way that the learner will be able to understand it by self study. The units like Research design, scaling techniques, Testing of hypothesis do require careful study because of their utmost importance in the process of research. The nature and scope of research in different functional areas of management viz. production, finance, marketing and Human Resources.

While developing the text of each unit various books and reports have been used. We would like to acknowledge the authors of all such books for their help. We also would like to welcome constructive suggestions to improve the quality of study material of this book.

Preface

It gives us great pleasure in making this Self Instructional Material (SIM) available to the students of M.B.A. both Executive and Distance Mode run by Centre for Distance Education, Shivaji University, Kolhapur for the paper "Business & Economic Environment".

This book contains upto date material regarding units like introduction to Indian Economy, profile of Indian agriculture and industry, industrial growth, Reserve Bank of India, monetary and fiscal policies, history of Indian planning, recent plans and liberalization, privatization and globalization as also topics like international trade, theories of rate of exchange and balance of payments.

The whole material is rich with latest available statistical and descriptive data. Assepts have been made to give precise analysis of economic development as it evolved in India. Unit writers have put in great efforts in presenting great deal of information in a compact manner without adversely affecting utility of the writing. Data sources have been indicated. List of books reffered to and necessary for further reading is given at the end of each unit.

We are confident that this book will be of great use to the students of M.B.A. courses. Suggestions for further improvement are welcome. The same may kindly be addressed to Director, Centre for Distance Education, Shivaji University, Kolhapur.

We thank all the unit writers as also officers and employees of Centre for Distance Education and University Press for their enthusiastic co-operation.

Kolhapur.

Preface

Finance is not isolated, but it is integrated function. Financial Management aims at owners' wealth maximization. It is growing and developing subject. On one hand, it covers financial decisions such as financing decisions, investment decisions and dividend decisions. On the other hand, it refers to estimation, analysis and management of financial resources with the organization. But this book does not cover entire financial management but restricted to the syllabus of Paper No. 10 of M.B.A. Semester II. The present book 'Financial Management' has been written with keeping in the view of requirements of the students of the students preparing for this programme. The book has several important features which are as follows :

1. It meets the course requirements of the students in the course of 'Fundamentals of Financial Management' of different universities.
2. The content of the paper has been divided into eight units, as per the syllabus prescribed by the university.
3. The language of this book is simple and lucid.
4. It explains the objectives at the beginning of each unit to know the students what they will learn after studying the respective unit.
5. It includes objective-type questions, essay-type questions and practical problems at the end of each unit.
6. It will be yardstick to understand relative concepts, for business executives.

We are glad to present this book to the readers with some value added features. Hence, they will find that it will be extremely useful to them. The suggestions from readers for the improvement are gratefully acknowledged.

Preface

Human Resource Management is the basic resource management in the organization. India is second largest country in the area of Human Resource. HRM is such a management philosophy where human activities are managed. Among all resources HR is vital in the organization because this resource helps in value addition. For conversion of any raw material into finished product, HR is required. Now a-days this resource has become the most significant resource in the business world. In LPG scenario the whole world has become a labour market, hence talented HRM becomes essential in all organizations.

This book covers Human Resource Management which includes, HRM in a Dynamic Environment, Human Resource Planning, Procurement and Placement, Maintenance of Manpower, Compensation Management, Employees Separation and Superannuation and New Trends in HRM. Unit No. 1 and 2 (Human Resource Management, HRM in a Dynamic Environment) has been written by Dr. Khulkhumbe, Unit No. 3 and 4 (Human Resource Planning, Procurement and Placement) has been written by Dr. A. M. Gurav, Unit No. 5 and 6 (Maintenance of Manpower, Compensation Management) are written by Dr. Rajashri Shinde, Unit No. 7 (Employees Separation and Superannuation) has been written by Smt. Bindu Menon and Unit No. 8 (New Trends in HRM) is written by Dr. Babu Thomas.

I sincerely thank all authors and the Shivaji University authorities for making this Self Instructional Material (SIM) possible.

Preface

Thank you for being one of the learner of MBA Executive (Distance mode). Exciting new changes are coming to the marketing field and that we can help the present and future marketing managers to perform their work more efficiently and effectively.

Marketing is a practical discipline. Marketing is social science based on theories and concepts. Thus the study material prepared by the team of experts reflects the applied approach. You will definitely appreciate and understand it when you enter the marketing field after discovering the direct relevance of what you have learnt.

Marketing is an exciting, energizing and enthusiastic discipline. We have therefore, put in lot efforts at making the instructional material intelligible, interesting and a good reading matter. We have provided you with our best writing to generate interest as you proceed reading chapter by chapter.

This study material has been organized under eight units. The first unit starting with Marketing Management in which the basic concepts of marketing have been clarified, while the second unit deals with the Marketing Research and the details of Marketing Information System. The third unit highlights the Consumer Behaviour aspects. In this unit an indepth discussion has been carried out pertaining to the consumer and his/her behaviour. The answer to the questions; what is market segment? How markets are segmented? What criteria's are used to evaluate the segments? are answered in the fourth unit. The detailed Marketing Mix constitutes the remaining last four units i.e. Product Strategy, Pricing Strategy, Promotion Strategy and the Physical Distribution Strategy.

Preface

The radical changes in today's business world have affected the working style of the manager. For a manager to succeed, mere knowledge and ability to use computers and technology efficiently is not enough. He has to recognize that accurate and complete information is the basis for intelligent decision making. He must have the ability to access, evaluate and use information in multiple formats from multiple sources. A Management Information System (MIS) enables him to do so. MIS is an integration of various other information systems. The main purpose of MIS is to provide information support for the managerial functions. Information has now become a source of competitive advantage. In view of the growing importance, Management Information System is included as one of the core subjects for various Management and Technology courses offered by universities.

This Self Instructional Material (SIM) covers the syllabi requirement of the MBA(Executive) programme. It introduces the concept of MIS, its role, importance and uses in the first unit. In the second unit the various information systems are discussed. The third and fourth units deal with the basics of a computer system and database & database management concepts respectively. The strategic role of information system in an organization is discussed in unit five. Unit six is a detailed account on how to build a information system while unit seven discusses the causes for Information system (IS) success and failure, which is illustrated with the help of a case study. Finally the application of MIS or IS in the various functional areas of a business organization is dealt in detail in the last unit. The main objective of this SIM is to help the students to identify the ways to i) Analyse data and information, ii) Organize information for practical applications and iii) Integrate information into existing body of knowledge and use information in critical thinking and problem solving.

Preface

The world of operations is an ever-changing one. Technological changes have had considerable influence on the manner in which manufacturing concerns are managed, however, many of the fundamental managerial problems remain unsolved. Materials must be purchased, inventories controlled, and production scheduled whether we are concerned with automobile tyres or computer chips and whether we are producing by hand or with a million-dollar automatic machine. Techniques and approaches for performing these managerial tasks have changed and improved fortunately, but the basic challenges are still present. This edition of Self Instructional Material (SIM) deals with the basic functions and challenges of managers in the business environment. I feel that those are the more complex in all of industry. However, the approaches and solutions discussed have application in almost any type of business endeavor, whether it be a restaurant, a farm, or a bank. The definition of 'production' will vary from business to business but the problems relating to that production will have a great deal in common.

In this endeavor, it gives us a great pleasure in making this Self Instructional Material (SIM) on the subject of "Production and Operations Management" available to the students of MBA (Executive) examination of the centre for Distance Education of Shivaji University.

"Production and Operations Management" is a vital subject of MBA (Executive) syllabus. In this book we have presented study material required for understanding units like production management, plant location and plant layout, types of production system, production planning and control, quality management, maintenance and materials management, purchasing and stores management, inventory management etc.

We have tried our best to present the material with utmost conceptual clarity, necessary theoretical background, appropriate terminology and wherever required explanatory tools. All the unit authors

have taken efforts to reach the required level of precision, quality and simplicity in their writing. Terminology, key words, along with self assessment exercises are also given. Books referred to and necessary for further reading are listed at the end of the units.
