Kavya Ltd. was famous in manufacturing of high fashion dresses they have both international and domestic markets. They are focusing on developing latest and unique designs especially for ladies and children. The main strength of company's business success was the design of the product. There are 500 employees are working, out of which 25 female employees were in design department. The main function of design department was to be to collect information about the latest fashion in international and home markets, to analyze it and to suggest and prepare the suitable design for the company.

Ms. Reena has appointed as chief designer of the company. Before joining the company, she received M.sc degree in Clothing and Textile with specialization in dress design. She also completed training in dress design of reputed institute in USA. She also completed summer training for two months in Kavya Ltd. As a part of her M.Sc degree during her training she impressed the management with her creative thinking about dress design. Many design suggested by her during this period was accepted by the management and were appreciated by the customer. Therefore the chief designer of the company retired and Reena applied for the position, she was taken by the management to fill the vacancy.

As Reena was with the company for two month for summer trainee, she was aware about the culture of the company, she knew most of the employees of design department. she was also aware the likely resistance that she could meet on her joining the position as she was replacing a very experienced and highly esteemed lady. Though she could not expect direct resistance from others, she was very serious about the resistance to be shown by one designer, Mrs. Jaya, who was in fifties and was designer in the company for the last fifteen years. The 'grand old lady', as she used to be called by her colleagues, carried lot of weight with group members. She did not have liking for young girl directing and controlling them. Therefore, Reena thought rightly that without her active cooperation, she could not succeed in her career. However she was determined to get her career off on the right foot. As a result, she was giving serious thought to win over Mrs. Jaya and other members of the group but not sure how to proceed in the matter.
