About the Theme :

Education is fundamental for achieving full human potential, developing an equitable and just society, and promoting National development and Universal high-quality Education .

The aim of Education will not only be cognitive development, but also building character and creating holistic and well-rounded individuals equipped with the 21st century skills. Knowledge is a deep-seated treasure and education helps in its manifestation of the perfection which is already within an individual. Specific sets of skills and values across domains will be identified for integration and incorporation at each stage of learning, from pre-school to higher education. Curriculum frameworks and transaction mechanisms has to be developed for ensuring that these skills and values are imbibed through engaging processes of teaching and learning.

Hence, Holistic and Multidisciplinary education across the sciences, social sciences, arts, humanities, and sports for a multidisciplinary world is essential to ensure the unity and integrity of all knowledge.
