

# SUK appeals for donations to boost student facilities

TIMES NEWS NETWORK

**Kolhapur:** The Shivaji University, Kolhapur (SUK), in a public appeal on Saturday, has asked all stakeholders and general public to come forward and donate so that basic facilities can be provided to the students.

SUK registrar Vilas Nandavadekar said that facilities like free bus passes, washroom and hostel are on the cards for students on the varsity campus in Kolhapur along with campuses across affiliated colleges in Kolhapur, Sangli and Satara districts.

When contacted DT Shirke, pro-VC of SUK, said there are at least 1,000 girls in various remote colleges across Sangli, Satara, and Kolhapur districts and they need to be provided with free transportation facility so that they can regularly attend the college.

"Due to the severity of the remoteness and money issues, many girls were found not attending the college and that is why we need at least Rs 5 crore so that a corpus fund can be created and stu-

SUK cannot provide financial assistance for all these projects

dents get to avail a this facility," he said.

He added that there are also many colleges in rural areas that need to be equipped with basic facility of washroom for girls.

"Initially, we have identified 50 colleges under our jurisdiction that need to be provided with the toilet facility. If we get donations, these issues can be sorted out at the earliest," Shirke said, adding that constructing a hostel on the varsity campus is also on their agenda.

"Currently, we have three

hostels for girl students, and one hostel for students registered with the earn-and-learn scheme. We need to construct one more hostel with an intake capacity of at least 150 students that will provide convenient stay of the students," he said.

According to Shirke, the university cannot provide financial assistance from its funds for all these projects. "Hence, a public appeal has been made for the donation. It would help in creating better education facilities for the students," he added.
