

Master of Social Work (MSW)

Master of Social Work is a professional post-graduate degree program, which is opened to any graduate candidate. The program promotes macro and micro aspects of professional social work practice and also focuses more on direct social work practices in communities and the fields of social services. Social work is a field where trained professionals work for the welfare of individuals, communities, families and groups. Social work enables people and communities to deal with challenges and enhance their well-being. It helps to promote social change and empowers people for social and economic development. Social workers are engaged in several activities such as counselling, diagnosis of societal problems, interpersonal problems, community development, teaching, helping the physically or mentally challenged and socio-political research. The course curriculum provides multidisciplinary knowledge and skills focusing on both theoretical and practical approaches to rural community development. The students will be given hands-on field experience to know the reality and to motivate them to commit to rural community development either in teaching and research or as practitioners in the organization/institution involved in rural transformation.
